EMPRESS THEODORA
APARTMENTS

ITALY

After meticulous renovation, the new Empress Theodora Apartments residential compound will be opening in October 2023 near the small but picturesque baroque church of San Stae, in the heart of the Sestiere Santa Croce among the calli of the most authentic Venice.

The real estate project consists of 4 luxury apartments - ranging in size from 40 square meters to 70 square meters - intended for tourist use for short to mid-long stays in one of Venice's most ancient and charming neighborhoods.

The elegant, finely restored rooms pay homage to Marietta Barovier, Giustina Renier Michiel, William Shakespeare's famous character Portia, and the Empress Theodora – all charismatic personalities who revolutionized the role of women in the societies of their time. Furnishings and decorative style are exquisite and rich, loosely inspired by Byzantine art and the refined elements of Moorish architecture. These one- or two-level apartments all overlook the pleasant stillness of the inner courtyard and are comfortable and functional, with innovative home automation systems.
