# WHERE PERSEVERANCE MEETS PERFORMANCE

At Torque Fitness®, we're on a mission to empower individuals to unleash their full potential. With unwavering dedication and a steadfast commitment to doing what's right, we're shaping the future of functional and strength training—one innovation at a time.

Welcome to Torque Fitness – where strength knows no bounds.

## DRIVEN BY PEOPLE, DEFINED BY PERSEVERANCE, GUIDED BY PRINCIPLES

We believe that extraordinary people fuel innovation. That is why we're dedicated to nurturing a team of talented individuals who embody a "Don't Quit. Ever." attitude.

We're relentless in our pursuit of excellence, continuously striving to elevate athleticism to new heights. From products to service and support, we never stop improving and innovating.

No matter where you start or what obstacles you face, perseverance is the key to unlocking your true potential. At Torque Fitness, we champion athletes of all types and abilities. Embrace the journey, push past your limits, and remember..

**DON'T QUIT. EVER.™**

## ONE VENDOR SOLUTION

Whether you're opening a brand new facility or converting an existing space, our team will take care of you from start to finish. Offering a comprehensive range of high-quality products with a focus on innovation and durability. Trust Torque Fitness to streamline your purchasing process and elevate your fitness experience with a single, reliable vendor.

## WHY CHOOSE TORQUE?

**SERVING ELITE FACILITIES WORLDWIDE**

Whether you run a national chain or a small studio in any corner of the world, Torque Fitness has a proven record of effectively serving facilities everywhere. We have numerous long-standing relationships with the worlds most elite athletic teams, clubs, and companies alike.

**PROVEN INNOVATION**

We believe every fitness facility should be equipped with the most innovative, intuitive, and inspiring training equipment possible. We provide every tool needed to make sure your facility owns functional training in your market.

**QUICK LEAD TIMES**

We know that meeting deadlines is an imperative part of the industry. That is why we work diligently to ship orders as quickly as possible and provide timelines well under the industry standard.

# X-CREATE

## INTEGRATED ACCESSORY STORAGE

X-CREATE was made to store all functional training accessories that previously were found on the floor or other inconvenient places - ranging from stability balls, kettlebells, dumbbells and beyond - in a way that is unique to each facility.

## MAXIMIZE FLOOR SPACE

X-CREATE was designed with real estate in mind. 3ft functional upright bases maximize floor space needed to create the ultimate training apparatus. Durability is not forgotten either, each upright is built with a heavy-duty steel frame with bolt patterns for floor mounting located on both the front and back.

## COMPLETE CUSTOMIZATION

Each X-CREATE system is designed to meet the demands of every facility. This unique system is fully customizable, with a full suite of modules and attachments to choose from - the possibilities are endless.

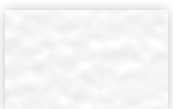

## UPRIGHT COLOR OPTIONS

SATIN BLACK

PLATINUM

TEXTURED WHITE

## A SYSTEM FOR EVERY FACILITY

X-CREATE is available in a wall, bridge, center, or corner space configuration. Whether you are looking to train a large group or simply store accessories, there is an X-CREATE system for you.

WALL

BRIDGE

CENTER

CORNER

## UNIQUELY YOURS

Torque understands that each space and training program comes with its own unique requirements. That's why X-CREATE is designed to be fully customizable, offering a range of options to meet diverse needs. From uprights available in a variety of colors and heights to modular widths spanning 2.5 to 8 feet, X-CREATE allows you to build a setup that perfectly aligns with your space and training goals.

Equip your system with a wide selection of attachments and accessories, for a solution exclusive to your program.

# TRAINING WITH X-SELECT

The **3-Module X-SELECT Wall - X1 Package** has 2 built-in cable component stations users can perform a wide variety of exercises independently or the stations can be combined for use as a dual adjustable pulley system.

The system is designed to be situated against a wall with storage for accessories in the middle. The center module also has a pull-up bar and two anchors for suspension training.

Pack ample cable training options in the smallest footprint possible with a **2-Module X-SELECT**

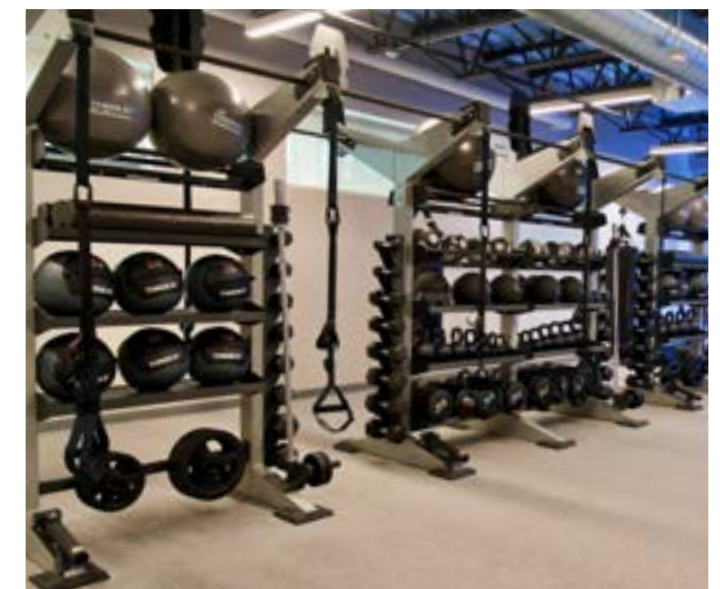

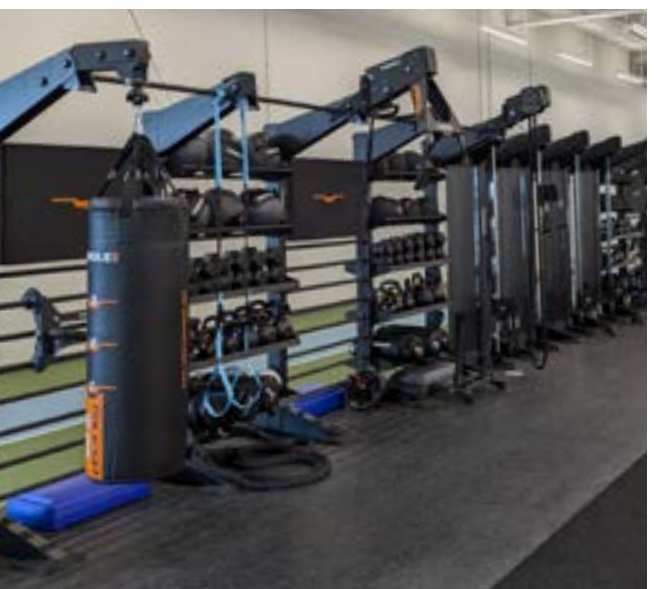

FRONT

BACK

## COMBINING THE FUNCTIONAL STORAGE OF X-CREATE WITH OUR CABLE TECHNOLOGY

Bridge the gap between function and traditional fitness with the customizable Multi-Station X-SELECT System. Add a Lat Pulldown, Seated Row, Cable Component Station and more to any X-CREATE system.

# RIGS & RACKS

## DESIGNED FOR GROUP TRAINING WITH FUNCTIONAL FITNESS CAPABILITIES

We offer pre-configured or completely customized solutions. Choose between anchored or free-standing systems to fit the needs of your facility.

**X-SIEGE**  
14 x 4 FOOT FREESTANDING RACK

**X-RACK**  
14 x 4 FOOT RACK WITH STORAGE & CABLES

### LIMITLESS POTENTIAL

X-RACK and X-SIEGE are feature packed rack systems designed from the ground up to join together accessory storage with lifting, cable and cross-training stations.

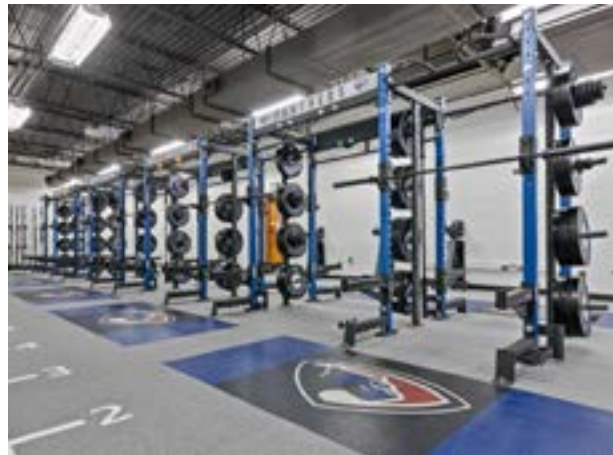

Torque's latest TR1 & TR2 lines are the ideal choice for those seeking a durable rack system with premium features while maintaining a compact footprint.

Multiple heights, lengths, depths, and colors offer a limitless number of options on all rigs & racks.

### CUSTOMIZABLE SOLUTIONS

Combine, build & train with quality. Torque rigs & racks are fully customizable solutions used to meet and elevate the needs of any training facility. All of Torque's systems are designed to be personalized, allowing facilities to design a functional training space that fits their unique needs.

Customize from the ground up – choose from freestanding X-SIEGE or anchored X-RACK systems, load with attachments and finish with a custom graphic sign featuring your facility's branding.

### SOLID FOUNDATION

Provide a stable and secure surface for performing heavy lifts. Designed to absorb shock and reduce noise, they protect both the equipment and the flooring while enhancing safety during intense workouts. Custom fit to seamlessly integrate with your Torque rigs or racks, ensuring optimal stability and functionality.

## ELEVATE YOUR SPACE WITH AN EXPERTLY CRAFTED TORQUE RACK SYSTEM

Get the most out of your facility with a half or power rack – built strong to handle the toughest lifters.

TR1 - 7ft Squat Stand

TR1 - 7ft & 8ft Half Rack

# MAG-FORCE™

## RESISTANCE TECHNOLOGY

At the core of Torque's advanced training equipment is Mag-Force Technology, a magnetic resistance system that adjusts automatically based on your effort. This groundbreaking feature on our TANK® and Relentless™ product lines creates scalable resistance, intensifying as you push, pull, or engage more forcefully—without the need for additional weights or manual adjustments. Mag-Force Technology is built for versatility, allowing athletes of all levels to challenge themselves.

### EXPERIENCE UNMATCHED TRAINING

Mag-Force Technology provides an adaptive training experience that responds to your effort. The harder and faster you push or pull, the greater the resistance, allowing you to continuously challenge yourself and build strength. This dynamic system ensures that every workout is intense and effective, making it ideal for facilities looking for solutions to make a top tier training environment.

### BUILT TO LAST

Engineered for unmatched reliability, this system is the go-to choice for athletes and trainers alike. Built with heavy-duty materials and a robust design to withstand the toughest workouts and ensure long-lasting performance. With a focus on both durability and functionality to support peak performance day after day, even in high-intensity training conditions.

**RELENTLESS RIPPER™**

**RELENTLESS ROPE™**

**TANK™**

# RELENTLESS ROPE™

A force to be reckoned with. Crafted for unlimited performance, Torque's Relentless Rope uses innovative magnetic force resistance to enable bi-directional movements, promising a limitless rope trainer challenge.

## LIMITLESS MOUNTING OPTIONS TO ANY SYSTEM

The Relentless Rope is mountable in a variety of ways to most Torque and other manufacturers' strength systems. The Relentless Rope can be mounted to a wall or essentially any square tube 6x6 or smaller.

## COMMERCIAL QUALITY

The Relentless Rope is designed and built with commercial training environments in mind. With a commercial warranty, your Relentless Rope is guaranteed to withstand endless hours of workout fun.

## 4 LEVELS OF ADJUSTABLE RESISTANCE

The Relentless Rope provides 4 levels of resistance settings that are easily accessible. At each level, the faster you pull the harder it gets.

## PIVOTING ROLLER DESIGN

Torque's pivoting roller design keeps the rope wrapped around the drive roller at all pulling angles while minimizing rope flexion, providing consistent resistance and longer rope life.

# RELENTLESS RIPPER™

Revolutionize your workout, crafted for infinite versatility, Torque's Relentless Ripper™ uses cutting-edge Mag-Force Technology™ to provide a customizable and challenging workout experience suitable for athletes of all levels.

## RACK, RIG, & WALL MOUNTING OPTIONS

Mountable to racks, rigs and walls, offering users the flexibility of incorporating it seamlessly into any fitness facility. The Ripper's mountable options provide a space-saving option for every space.

## INCLUDES PERFORMANCE MONITOR

The Ripper's monitor will track metrics such as time, strokes per minute, calories, watts, distance, and more. This helps to enrich the user experience contributing to an informed and engaging workout.

## 10 LEVELS OF ADJUSTABLE RESISTANCE

The Ripper's 10 levels of progressive Mag-Force™ Resistance ensure a customizable and challenging workout experience suitable for athletes of all levels.

## BELT-DRIVEN TRANSMISSION

The Relentless Ripper allows for a feel you would expect from similar machines but in a smaller footprint.

# TANK<sup>®</sup> ALL SURFACE SLED

Elevate your training with the TANK series, engineered with Torque's innovative Mag-Force™ Technology for scalable resistance that intensifies the harder you push. Designed for all fitness levels and surfaces, TANK sleds offer bi-directional movement, durable construction, and adjustable resistance, making them versatile for both group and individual workouts. Whether it's the rugged, new M3, the robust M4, or the ultimate performance-driven MX, each model enhances strength, conditioning, and functional training. The TANK delivers unmatched versatility and intensity for any training scenario.

## EXTREME INTERVAL TRAINING

By adjusting the resistance level to various intensities, users can perform bursts of acceleration and speed, diversifying the intensity in different runs or within the same set.

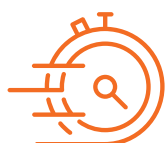

## INCREASE EXPLOSIVE POWER

A challenge at every level. Each TANK model delivers three levels of resistance, elevating difficulty as resistance level and speed increase. The TANK MX is optimized with MX Mode which adds an additional 25% resistance to challenge even the most explosive athletes.

## FULL BODY WORKOUT

A TANK workout requires athletes to engage all areas of their bodies, creating efficient and effective aerobic and anaerobic exercises.

## BUILD SPEED & ENHANCE ACCELERATION

Thanks to TANK's Power Curve, the faster you push it, the harder it gets. When athletes train in TANK's lowest resistance, they enhance their speed. By increasing resistance level, acceleration is built by escalating power and stride frequency.

## EXPAND TRAINING POSSIBILITIES WITH ACCESSORIES DESIGNED FOR TANK TRAINING

V-STRAP

WAIST HARNESS

TOW ROPE

MX WHEELBARROW HANDLES

POWER TETHER

M4/MX SWIVEL

## TANK<sup>®</sup> M3

Meet the TANK M3, the all-new, versatile model in the TANK lineup. Designed to enhance agility and high-intensity movements without the need to readjust allowing for a more dynamic workout.

## TANK<sup>®</sup> M4

The TANK M4 is the tool trusted by trainers everywhere to enhance group training sessions for athletes of all levels. With its magnetic resistance, the TANK M4 adapts to changes in speed, delivering a challenging workout that intensifies as it is pushed harder.

## TANK<sup>®</sup> MX

The TANK MX is a powerful, all-terrain push sled built for the toughest training. Featuring "MX Mode" that offers additional resistance at each level making it a true training powerhouse for high-intensity workouts.

# TANK<sup>®</sup> M3

## INTRODUCING THE LATEST TANK RESISTANCE SLED

Built for unmatched performance and durability, this new model is compatible with a comprehensive monitor to give you real-time feedback and statistics. With its three-wheeled, highly maneuverable design and airless tires, it glides smoothly over any surface, indoors or out. The dual-position handles allow for a customized grip, letting you switch up your push and pull techniques for a varied workout. And, of course, it's equipped with the patented Mag-Force™ Resistance Technology, offering the challenge you crave at every fitness level.

### PUSH HARDER. TURN SHARPER. CONQUER EVERY CORNER WITH THE NEW TANK M3

Experience the freedom of movement with the new TANK model, featuring an innovative three-wheeled design that redefines maneuverability.

Say goodbye to the hassle of lifting, or readjusting to navigate corners or change directions—simply glide through your workouts with ease. This revolutionary design allows you to push your limits while maintaining control and stability, whether you're training indoors or outdoors. Elevate your fitness game with the TANK M3, where seamless movement meets powerful performance.

### PROVEN DYNAMIC RESISTANCE

Including the trusted Mag-Force resistance technology, offering three adjustable levels that automatically increase intensity with effort. The harder it is pushed or pulled, the more challenging the workout becomes, ensuring that your members are always tested and engaged as they strive for their fitness goals.

### UNCOMPROMISING TIRE PERFORMANCE

Featuring robust airless tires designed for ultimate durability, ensuring you can tackle a full body workout without the worry of flats so you don't have to quit, ever. With pivoting back wheels to enhance agility, and allow for seamless movement.

### INNOVATIVE HANDLE DESIGN

Incorporating handlebars that seamlessly integrate standard grips and wheelbarrow handles into one versatile design. This innovative feature allows you to switch between pushing and pulling to wheelbarrow movements quickly and effortlessly.

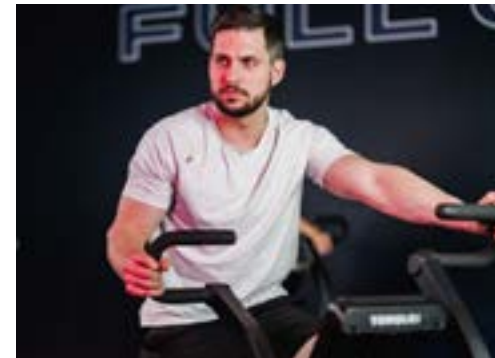

## STEALTH AIR™ BIKE

Torque designed an air bike built to withstand rigorous club use, delivering a smooth and quiet ride that pushes users to their limits with an intense, full-effort workout.

### QUIET OPERATION

Bikes were sent to an acoustic laboratory to test sound power and pressure at various RPM. The Stealth was measurably quieter than other air bikes on the market.

### MULTI-GRIP HANDLES

Shifting the handle motion forward enables the user to perform standing sprints and allows for easier entry and exit, while multiple hand positions provide flexibility and comfort. The top grip has 17% more handle range of motion for taller users.

### VERSATILE WORKOUTS

The Stealth is incredibly versatile and can be used for a wide range of workouts, from low-intensity steady-state cardio to high-intensity sprints.

### AIR DIFFUSER

Equipped with a diffuser instead of a conventional shield, the air flow is directed towards the user's body, preventing dry eyes while keeping them cool. The large, removable fan cover makes cleaning and maintenance a breeze.

## STEALTH AIR™ ROWER

The all-new Stealth Rower has a sleek design to complement the look and feel of all facilities. Headlining key features, our rower stands out as a top choice for clubs pursuing both durability and functionality.

### RESISTANCE RANGE

The Stealth Air Rower offers an unmatched resistance range, with a lower starting resistance ideal for beginners and a maximum level that challenges even the most advanced athletes. By offering both gentler starts and tougher finishes, our rower provides versatility beyond standard machines on the market.

### DURABLE CONSTRUCTION

Featuring a nickel plated steel chain to prevent rust and extend lifespan, paired with an aluminum and steel frame this unit is both lightweight and durable. Rigorously tested and built to endure the daily demands of a commercial facility.

### COMPREHENSIVE MONITOR

Equipped with a built-in generator for extended console battery life, this device also offers 5k, ANT+, and BLE connectivity features, that guarantees users stay connected and maximize their workout experience.

### CRAFTED FOR COMFORT

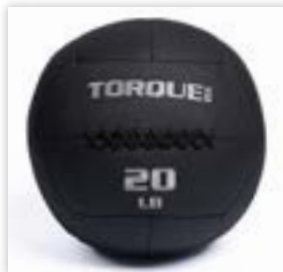

This design caters to users of all sizes, incorporating ergonomic over-molded handles, a comfortably contoured seat, and adjustable footrests for an enhanced experience.
