Design:

Exemplifying a modern perspective on classic D.C. grandeur, the Waldorf Astoria Washington DC brings exquisitely decorated colonial-inspired luxury to a magnificently reimagined historic building. The building celebrates Washington D.C.'s Romanesque style, but from a uniquely American perspective

The glass detail, woodwork, and stone carving, which could never be replicated today, have all been restored to their original grandeur harkening back to when the building was built in the 19th century. Impressively grand, soaring windows, large open spaces, a 9-story atrium, and massive ballroom communicate a sense of greatness and openness. Glittering crystal sconces, and richly polished wood furnishings are elegant and timeless, evoking a classical motif with European influences. While stately colonial-inspired décor reminiscent of The White House imbues a sense of importance.
