ABOUT THE COMPANY

500 YEARS OF TRADITION

The city of Zadar with its three millennium history, a rich historic tradition of the Mediterranean, Dalmatian and Croatian cultural heritage and many natural beauties is a true pearl of Croatia. The production of Maraschino represents a huge part of Zadar's history and goes back all the way to the 16th Century. At that time Zadar was under the rule of the Venetians.

The order of Dominican monks, settled in Zadar area, started the production of a liqueur called Ros Solis which roughly translates to the Sun's Rose. This is considered to be the beginning of the history behind the aromatic liqueur made from Marasca sour cherry known as Maraschino.

MARASCHINO

Deemed as “THE KING OF ALL LIQUEURS”.

This is understandable considering its worldwide fame and the fact that numerous celebrities have enjoyed its taste and flavour: Alfred Hitchcock, G. B. Shaw, Charles Baudelaire, Ernest Hemingway, Orson Welles, Charlie Chaplin and many others

Not only that he is famous among numerous celebrities, he is also the only bottle in the world that is hand-wrapped in the traditional manner using straw, representing the original craftsmanship and tradition of which we are immensely proud.

MARASCHINO

The characteristic flavour of Zadar Maraschino is imparted by the traditional production of Maraschino distillate, which is obtained both from distillates of fruit and the leaves and stems of Marasca cherries.

Sour cherries grow worldwide, however, Marasca cherries uniquely achieve such aromatic notes and nutritional value only in Dalmatia within a limited area, around Zadar.

The popularity of Maraschino liqueur evidences the fact that the major shipment of it was found in storage of a sunken, luxury passenger ship - legendary Titanic.

CHERRY BRANDY

Cherry Brandy is a dark red coloured liqueur, with a rich and fruity taste. Its natural fruit aroma and sweet-sour taste reveal the true heritage of this liqueur.

It is moderate density and the characteristic red colour represent the perfect addition to any cocktail such as Singapore Sling and Blood&Sand, or when served as an appetizer is the best introduction to any meal.

CHERRICA

The deep red color and rich, fruity flavor are signature characteristics found not only in Cherry Brandy but also in Cherrica.

Its flavor is derived from the maceration of its alcoholic juice, which, in addition to its primary fruity notes, acquires elegant almond undertones due to the maceration of the cherry pits.

ORAHOVAC

Maraska Orahovac is the only walnut liqueur on the market made from green walnut macerate, prepared in the traditional way as it has been in Croatian households for centuries.

It is widely popular as a remedy for digestive issues. It is served neat, on the rocks, as an aperitif or digestif. Unique flavor combinations are revealed when mixed with milk and coffee, and it offers a refreshing experience when paired with cola.

Maraska Orahovac received the award for Best Walnut Liqueur at the London International Spirit Challenge in 2022.

ORAHOVAC CHOCHOLATE

In the USA, a study was conducted on the impact of moderate consumption of green walnut liqueur on the human body. The results showed that green walnut liqueur is a strong antioxidant, due to the large amount of polyphenols and tannins.

Inspired by the idea that even the best things become better with the addition of chocolate, we enriched our renowned Orahovac with the enchanting taste of chocolate and created Maraska Orahovac CHOCOLATE – a decadent chocolate delight you deserve.
