

GUSTAV PARMENTIER GmbH

Product Range Cosmetics

Get Inspired by Nature!

We offer ingredients inspired by nature including herbal extracts, natural preservatives and antioxidants and a great variety of active ingredients. They can be used to formulate a wide range of cosmetic products, like creams, lotions, serums, hair and oral care products, colour cosmetics, waterless and natural cosmetics.

In this brochure you will find our range of cosmetic raw materials with details of the available specifications and an overview of the possible applications and benefits of the ingredients in cosmetic products.

Besides offering our standard range of products, we also readily help in fulfilling special requests for ingredients and offer technical and regulatory advice by our team.
