

**ECO-FRIENDLY &
BIODEGRADABLE
DISPOSABLE
TABLEWARE**

IF IT'S STYLISH, IT TASTES BETTER

SignorBIO was born to offer a 100% green alternative to disposable with different types of products and high-quality standards.

Complete logistics management, constant search for new ideas and private labels solutions, are the basis of the SignorBIO project.

GREEN MATERIALS

SignorBIO means greatest respect for the environment thanks to materials of vegetable origin.

Non-polluting products, obtained through dry mechanical processing, without adding external additives and adhesives.

+ GREEN than bioplastic:

are truly biodegradable in nature

**Sugar cane
fibre line**
100% compostable

Wood line

WITH YOUR BRAND

We make customised supplies
according to your graphic requests.

*Tear-off opening
on demand*

Even the
display box can
be customized
according to your
graphic requests.

DIFFERENT PACKAGING

We diversify the packaging
according to your needs.

RETAIL

HORECA

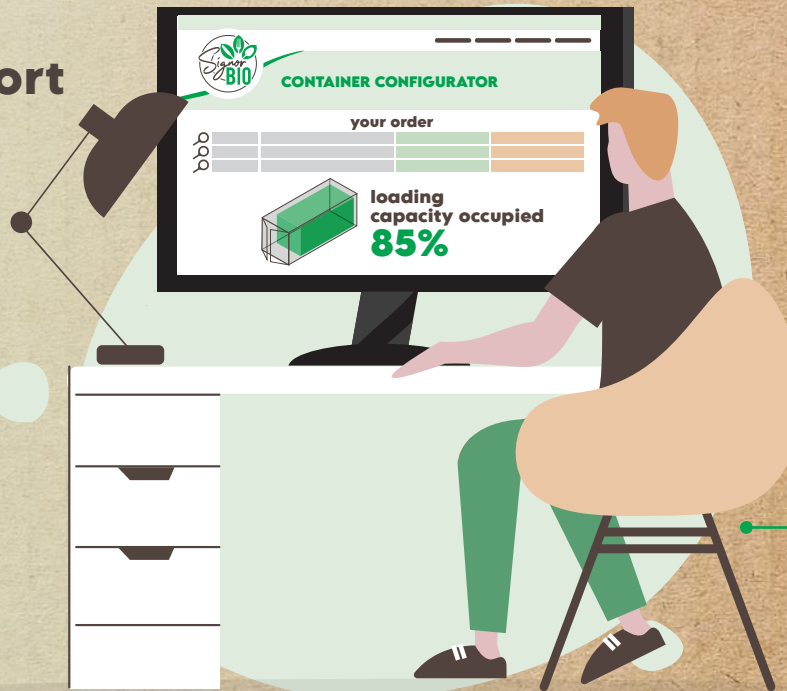

BULK

FROM THE BOX TO THE PALLET

You can choose among a wide range of products in stock,
or you can enjoy the benefits of direct import with the purchase of a container

Try our online container configurator!

You can easily pick the products and enter the quantities you need. If you have more points of sale, enter the number of your stores.

The configurator will tell you how many pallets, boxes and pieces will go to each single point of sale.

SignorBIO LOGISTICS

Two warehouses, double benefit.

CHINA _ Ningbo

Buffer warehouse between production and logistics, **to avoid stock outages and halve shipping times.** Quality control to ensure the safety and reliability of our products.

ITALY _ Verona

Warehouse stocked with every standard SignorBIO product, with capillary logistics capable of quickly serving the entire Italian territory.
