

A blue wooden toy car, resembling a truck or a small vehicle, is shown from a side profile. It has a high back with a handle-like cutout, a flat roof, and two large, light-colored wooden wheels with black tires. The car is positioned on a white surface with a black track pattern. The background is a blurred workshop or play area with wooden structures.

ABOUT MOOVER TOYS

The true vision of Moover Toys is to create excitement for children in innovative ways, by creating opportunities, through play, that support children's growth and development.

Based on Scandinavian principles of design; simplicity, durability, minimalism, and functionality, Moover toys allow for imaginations to soar.

Using paint that is environmentally friendly, water-based, and non-toxic, you can relax knowing that Moover toys are kinder to the environment and people's health.

Using the finest, high-quality materials, Moover aims to bring joy to those of all ages.

CLASSIC WALKER

From the highest quality line of luxury wooden toys comes the Classic Walker. From sit-to-stand, the Danish-designed walker supports your baby's first steps. Sturdy and dependable with safety as the top priority, your baby can learn to walk at their own pace, while building their gross motor skills. Wheel spin design ensures the walker stays close if the baby lets go. Rubber trim protects the walls and furniture.
