MIRUS
AIRCRAFT SEATING

# MIRUS AGILITY

Mirus Agility meets the unique requirements of leasing companies managing transitions of single aisle aircraft.

With the shortest leadtimes in the industry and no compromise on the renowned Mirus quality or attention to customer support.

Available for our most popular Hawk and Kestrel seats, Mirus can supply standard configuration and pre-designed specification seats in just 6-8 weeks from order for Boeing 737 and Airbus A320 aircraft.

Additonally lessors may choose from a range of pre-set options to enable them to personalise their seats with minimal impact of leadtime.

Where transition times are even tighter, leasing companies can provide longer range forecasts and Mirus will manufacture and hold seats in stock ready for call off at the moment they are required.

MIRUS AIRCRAFT SEATING

# OUTSTANDING IN-SERVICE SUPPORT...

## AFTERSALES SUPPORT

Dedicated aftersales team to support customers.
You will speak to a person, not a website portal.
Regional located product support personnel.

## SPARE PARTS FLEXIBILITY

Short lead time for replacement spare parts.
Guaranteed lead times RSPL can be purchased, or consigned for call off as needed.

## INTEGRATION SUPPORT

Following delivery, we can also offer you integration support if required, through organising the STC and a team to integrate.

## INSTALLATION TRAINING SUPPORT

Depending upon MRO, each shipset will take up to 2 days to install (overnight is standard after training – which Mirus will offer you FOC).

Mirus seats are designed for use in the harshest carrier operations and cabin environments, where aircraft have dense configurations or used on multiple routes a day, and as such we offer customer a class leading warranty package:

# MIRUS CARE

What makes Mirus unique is the strong interpersonal relationships we forge with our clients that go beyond the manufacturing and delivery stages, to provide **long-lasting aftercare and trust.**

We provide unparalleled customer attention and have the most generous and transparent warranty policy available in the market.

# MIRUS EXTENDED WARRANTY

The Mirus Care Extended Warranty offers lifetime care for Mirus aircraft seats for a low fixed annual fee. This means total lifetime care, covering all parts and labour on each passenger seat.

There is no other warranty programme like this in the aircraft seating space, and we are immensely proud to offer such a service, which truly differentiates us from our competitors.
