

Your Swiss Experience

A wide-angle photograph of a large audience seated in a convention hall. The audience is viewed from behind, filling the foreground and middle ground. They are facing a stage area. On the stage, there is a large screen displaying a presentation with the 'EPFL' logo and a speaker. Several spotlights are directed at the stage, creating beams of light that cut through the air. The ceiling is high and industrial, with many lights and rigging visible. The walls are a warm, reddish-brown color. The overall atmosphere is professional and high-tech.

Welcome to the SwissTech
Convention Center. The
venue where virtually
everything - physically and
digitally - is possible.

Our Assets

The assets that make the SwissTech Convention Center unique go beyond the benefits of its architecture, location and general facilities as a convention center.

You and your participants will benefit from a sustainable venue, Swiss know-how, the experience and support of a professional team, as well as the pioneering spirit and history of the EPFL.

ON **THE ALPS**
& **GENEVA LAKE**

SWISS MADE

The SwissTech offers the best of Switzerland – from its location within the exceptional natural environment of Lake Geneva, to the outstanding quality and efficiency of Swiss service and know-how.

SUSTAINABILITY

As part of the EPFL, the SwissTech Convention Center is a laboratory in a true sense. The architecture of the SwissTech includes several breakthrough discoveries made at EPFL, like using the water of Lake Geneva to cool the building and making windowpanes act as solar panels. The building was designed to be as energy efficient as possible, using primarily natural light, and 100% of our energy comes from renewable sources.

A TEAM OF EXPERTS

Efficient and adaptable, organized and precise, our team brings years of expertise.

With practical suggestions and assistance, we accompany you throughout the various stages and specificities of your project, converting your dream event into reality.

THE EPFL ENVIRONMENT

For over 50 years, EPFL has established itself as a leading technical university in Europe, with a focus on education, research and innovation. It contributes to progress and positive impact on various levels of society.

A University, a Convention Center and a Shared Philosophy

With its solid reputation and a proven track record of success, EPFL provides a dynamic and thriving environment for its 4000 researchers to develop cutting-edge projects that have a significant, sustainable and innovative impact on society, health and the environment.

They focus on drone technology, cancer treatment biotechnologies, global transport and mobility solutions, neuroprosthetic and robotic systems, among many others.

Lausanne & Switzerland

At the very heart of Europe, literally

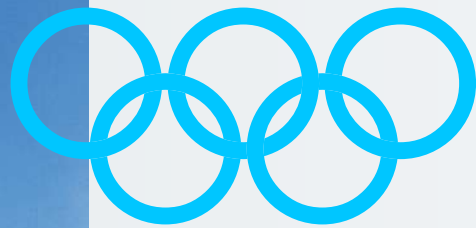

We are located in Lausanne, in the French speaking area of Switzerland, in the beautiful natural environment of Lake Geneva and the Swiss Alps.

LAUSANNE: DOLCE VITA, SWISS-STYLE

Named the best small town in the world in the first "Small Cities Index", Lausanne combines the benefits of a large urban center with the relaxed pace of a small town.

Lausanne is a friendly and cosmopolitan place, home to the International Olympic Committee and sport federations headquarters. Prestigious schools such as the International Institute for Management Development (IMD) and Ecole Hôtelière de Lausanne (EHL) are also located in the city.

A FAVORITE CULTURAL HALLMARK IS THE OLYMPIC MUSEUM AND LAUSANNE IS HOME TO THE INTERNATIONAL OLYMPIC COMMITTEE AND HAILED AS THE OLYMPIC CAPITAL OF THE WORLD.

Stretched along Lake Geneva and with 350 hectares of parks and gardens, Lausanne is easy to navigate with public transportation, it is the smallest city in the world to have a metro.

Shopping lovers will find the best Swiss products to bring home, from fashion to food and technology,

especially in the Flon, a neighborhood of successfully rehabilitated warehouses, the commercial and social beating heart of the city.

Active, creative, colorful, Lausanne has a decisive, delightful Latin vibe.

THE NEIGHBORING LAVAUX REGION IS
A UNESCO WORLD HERITAGE SITE

SIDE EVENTS

From wine-tasting to culture, hiking and sightseeing, the Lausanne region offers the perfect place to relax and discover.

Wherever You Are Lausanne is Easy to Reach

No matter where you, or where your participants are based, reaching Lausanne and the SwissTech Convention Center is easy and convenient.

One of the city's biggest assets is its highly strategical position in Europe: Lausanne is at the center of the efficient European train network.

It is also located between two busy and well-connected international airports, Geneva and Zurich.

On a micro level, public transportation - convenient, quick and reliable - is the easiest way to move around Lausanne: the M1 metro brings you right in front of the SwissTech Convention Center, a short commute from the city center.

Hybrid & Virtual: Our Auditorium D

Our auditorium D builds on the latest technologies to ensure a seamless event. Our in-house team is always ready to help.

Do you want to split your audience –one part in attendance at the SwissTech Convention Center, and another attending digitally? Or you need a last-minute change, and host everyone online? The solution is Auditorium D.

We have implemented solutions for the creation of digitized events, in hybrid or virtual format, while maintaining your objectives and the typical program and features of an on-site event.

4800 M²

Congresses & Exhibitions

Technology allows us to adapt the size of our main auditoriums with various modular spaces. In other words, the set-up is custom-made to match the audience size, never feeling too empty nor too cramped.

THANKS TO THE
SWISSTECH AND THE
FANTASTIC LOCATION,
THIS YEAR'S
CONFERENCE WAS A
GREAT SUCCESS."

Galas & Celebrations

The SwissTech is a wonderful venue to organize celebrations and given that the spaces can be transformed within minutes, it is possible to change configurations - theater seating, standing, dining - as many times as required within the same event.

Whether you are organizing a banquet for thousands of attendants, or just a small gathering, the different spaces can be set up ideally and accordingly: the space of our modular auditoriums can be totally transformed, in only 15 minutes.

2300 M²
