About us

Who we are

Gale & Cosm is a **distributor** and **manufacturer** of **raw materials and active ingredients** for the cosmetic industry, based on the outskirts of Milan, with extensive commercial experience in the Italian and European market.

The company has implemented its own product list with branded ingredients and avails itself of the technical collaboration of the best opinion leaders in the sector. In its own research and development laboratory, **formulation tests** are carried out on customer's request.

What we do

Our values

Value

Fast order and sample processing, formulation support and a team of specialists, are all part of the service philosophy that has brought Gale & Cosm to be a point of reference in the sector.

Vision

To offer the best of our Made-In-Italy know-how in terms of quality of our raw materials and of the services we offer.

Mission

We are here to provide optimal service to customers by respecting all their requests thanks to our internal lab and R&D team.

What we do

Our services

Internal Regulatory Affairs

that deals with international rules and regulations

Formulation trials and support in our internal lab

Logistic and transport support

Trade shows promotion and support

Technical training on-site, online

Cosmetic Connections

We are members of

COSMETICA ITALIA
associazione nazionale
imprese cosmetiche

SICC
Società Italiana di Chimica e Scienze Cosmetologiche

Italian Cosmetic Industry Associations

WE ARE FOUNDERS AND MEMBERS OF THE STEERING COMMITTEE OF **MAKING COSMETICS / IN-VITALITY TRADESHOW** (ITALY)

We handle daily relationships with the most relevant...

- Italian University Research Centers
- Test Laboratories
- Certifications institutes
- Cosmetic Consultants
- International partners
- International industry media publishings

Our Natural Sources

Oils and butters

Italian Olive Oil

Olive oil is rich in antioxidants which help prevent cellular damage caused by molecules called free radicals. The predominant fatty acid in olive oil is a monounsaturated fat called oleic acid, making up 73% of the total oil content. It also claims anti-inflammatory.

Avocado Oil

Avocado oil is the natural oil pressed from the pulp of an avocado. Almost 70% of avocado oil consists of heart-healthy oleic acid, a monounsaturated omega-9 fatty acid. It's a good source of vitamins A and E, which are linked to skin membrane health.

Hemp Oil

Hemp Seeds have unexpected benefits for the skin thanks to the essential fatty acids content (75%), especially Omega-6, Omega-3 and Vitamins.

Our Natural Sources

Oils and butters

Argan Oil

Argan oil is primarily comprised of fatty acids and a variety of phenolic compounds. The majority of the fat content of argan oil comes from oleic and linoleic acid. Additionally, argan oil is a rich source of vitamin E, which has powerful antioxidant properties.

Shea Butter

Shea butter is typically used for its moisturizing effects, thanks to its fatty acid content. The anti-inflammatory compounds make it a perfect fit to soothe and nourish upset skin.

Mango Butter

Mango is a rich source of antioxidants, vitamins (Vitamin C), and minerals. When applied topically, mangos possess hydrating properties. These qualities make mango a powerful food for nourishing your skin’s health.

Snail breeding farm

Gale & Cosm snail breeding farm is located in Tuscany, between Florence and Siena, on an open air territory of 1000 square meters.
There, we produce **GALESLIME**, our snail slime.
The snails live outdoor, in their natural habitat, without coverings. They are fed with selected, rich and varied fresh vegetables (non-GMO), for a natural and complete nourishment.

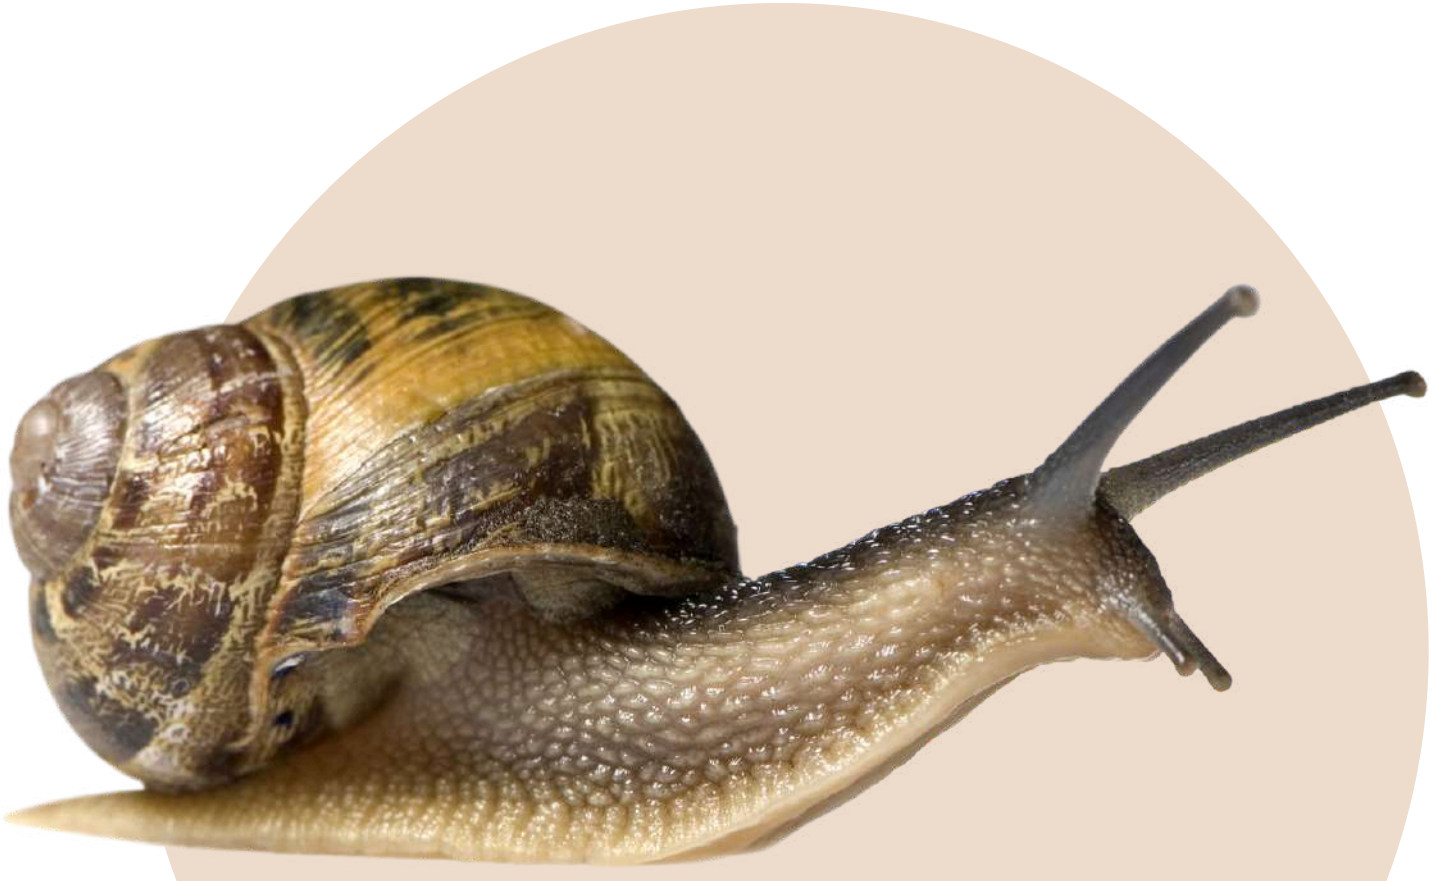

Slime quality depends on environmental conditions, on the quality of food the snails eat, how they are kept and how the slime is extracted.

Snail slime has been known as skin treatment since the time of the Ancient Greeks; for centuries snails have been used both as a food and as a treatment for a variety of medical conditions.

Product Portfolio

Our made-in-Italy Personal Care ingredients

NATURAL EMULSIFIERS

O/W Emulsifiers

**All of our ingredients are China Approved*

PRODUCT NAME	INCI NAME	VEGAN - COSMOS - HALAL
GALOLIVE® TEN	Polyglyceryl-3 Cetyl Ether Olivate/Succinate	Vegan
GALOLIVE® TEN COSMOS	Polyglyceryl-3 Dicitrate/Stearate, Cetearyl Alcohol, Glyceryl Stearate, Cetearyl Glucoside	WIP
GALOLIVE® 1000	Cetearyl Olivate, Sorbitan Olivate	WIP
GALOLIVE® OW	Polyglyceryl-4 Oleyl Ether Olivate	Vegan, COSMOS CERTIFIED, HALAL
GALHEMP® OW	Polyglyceryl-4 Hemp Seedate,Caprylyl/Capryl Glucoside, Aqua	Vegan, COSMOS CERTIFIED
GALESIDE L	C14-22 Alcohols, C10-16 Alkyl Glucoside, Cetyl Palmitate	Vegan, COSMOS CERTIFIED
GALOLIVE GREEN®	Polyglyceryl-3 Stearate, Olea Europaea Fruit Oil, Cetyl Alcohol, Sodium Stearoyl Lactylate	Vegan, HALAL
GALE 68®	Cetearyl Alcohol, Cetearyl Glucoside	WIP

NATURAL EMULSIFIERS

W/O Emulsifiers

**All of our ingredients are China Approved*

PRODUCT NAME	INCI NAME	VEGAN - COSMOS - HALAL
GALOLIVE® WO	Polyglyceryl-3 Triolivate	Vegan, COSMOS CERTIFIED, HALAL
GALEHEMP® WO	Polyglyceryl-4 Polycastorate/Hemp Seedate	Vegan, COSMOS CERTIFIED
GALEGLOSS®	Polyglyceryl-3 Triolivate, Sorbitan Isostearate	Vegan, COSMOS CERTIFIED, HALAL
GALE PG4®	Polyglyceryl-4 Triisostearate	Vegan, COSMOS CERTIFIED, HALAL
GALOLIVE 90®	Sorbitan Olivate	WIP

WATER DISPERSIBLE OILS AND BUTTERS

**All of our ingredients are China Approved*

PRODUCT NAME	INCI NAME	VEGAN - COSMOS - HALAL
GALOLIVE® WS	Olive Oil Polyglyceryl-3 Esters	Vegan, COSMOS CERTIFIED, HALAL
GALEHEMP® WS	Polyglyceryl-4 Hemp Seedate	Vegan, COSMOS CERTIFIED
GALEARGAN® WS	Argan Oil Polyglyceryl-6 Esters	Vegan, COSMOS CERTIFIED, HALAL
GALEMANGO® WS	PEG-70 Mango Glycerides	Vegan
GALESHEA WS®	PEG-75 Shea Butter Glycerides	Vegan, HALAL

WATER SOLUBLE OILS

**All of our ingredients are China Approved*

PRODUCT NAME	INCI NAME	VEGAN - COSMOS - HALAL
GALOLIVE® 30	Olive Oil PEG-7 Esters	
GALEARGAN® 30	Argan Oil PEG-8 EsterS	

SPECIALTIES

**All of our ingredients are China Approved*

PRODUCT NAME	INCI NAME	VEGAN - COSMOS - HALAL
GALESOL PLUS	Polyglyceryl-4 Caprylate, Aqua, Sodium Lauroyl Glutamate, Decyl Glucoside, Diglycerin	Vegan
GALESAN C®	Isododecane, Hydrogenated Polydecene	Vegan
GALESAN ECOGREEN®	Tetradecane, Helianthus Annuus Seed Oil, Tocopheryl Acetate	WIP
GALOLIVE® 40	Sodium PEG-7 Olive Oil Carboxylate	WIP

ACTIVE INGREDIENTS

**All of our ingredients are China Approved*

PRODUCT NAME	INCI NAME	VEGAN - COSMOS - HALAL

GALESLIME® COSMOS	Snail Secretion, Water, Potassium Sorbate, Sodium Benzoate	COSMOS CERTIFIED
GALE NMF®	Aqua, Sodium PCA, Lactobionic Acid, Trehalose, Arginine, Proline, Pentylene Glycol, Hydroxyethylcellulose, Pectin, Butylene Glycol, Xanthan Gum, Ethylhexylglycerin, Phenoxyethanol	WIP

EMULSIFIERS

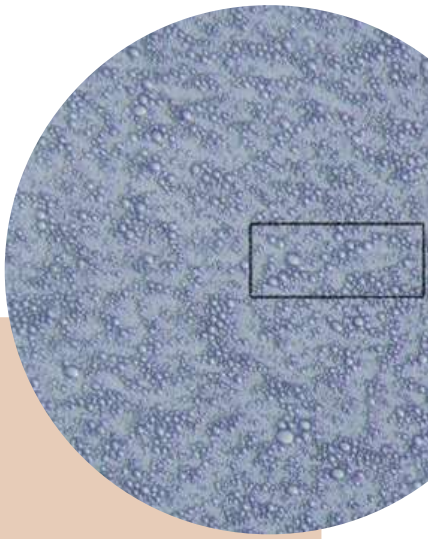

Galolive® Ten

O/W Emulsifier

INCI name: *Polyglyceryl-3 Cetyl Ether Olivate/Succinate*

- Appearance: white/yellow flakes
- Percentage of use: 2-6 %
- PEG-free
- Functional Countertype of Olivem 1000 by Hallstar
- Suitable for skincare and haircare in different textures, from light to rich. It is a self-emulsifier.
- Liquid crystals lamellar structure

Vegan

Our liquid crystal lamellar promoter

The use of an active emulsifier in cosmetics has great options for formulators: stability of the product and benefits on consumer's skin are brought by one single ingredient.
Galolive® Ten promotes the formation of liquid crystals in emulsions.

Compared to regular emulsions the liquid crystals demonstrated better skin care characteristics regarding permeability, skin hydration, and skin occlusion. This was attributed to the fact that it formed the same self-organizing structure as natural stratum corneum lipids, hence showing a high affinity to the skin. A high moisturizing effect was observed as liquid crystals combine the benefits of both O/W and W/O emulsions: it provides the same initial hydration as an O/W emulsion and at the same time the same occlusivity as a W/O emulsion.

EMULSIFIERS

Galolive® Ten COSMOS

O/W Emulsifier

INCI name: *Polyglyceryl-3 Dicitrate/Stearate, Cetearyl Alcohol, Glyceryl Stearate, Cetearyl Glucoside*

- Appearance: Waxy solid (flakes)
- PEG-free
- Emulsifying system of natural origin, for rich, easy-to-spread cosmetic emulsions.
- Liquid crystals lamellar structure
- Long-lasting moisturizing effect 5hr after application
- Restructuring property: reduction of TEWL
- Easy biodegradability and absence of amino derivatives.

Galolive® 1000

O/W Emulsifier

INCI: *Cetearyl Olivate, Sorbitan Olivate*

- Appearance: Waxy solid (flakes)
- PEG-free
- % of use: 2-8%
- Lamellar liquid crystal structure
- Natural alternative to synthetic emulsifiers
- Counter-type of Hallstar's Olivem 1000

EMULSIFIERS

Galolive Green®

O/W Emulsifier

INCI name: *Polyglyceryl-3 Stearate, Olea Europaea Fruit Oil, Cetyl Alcohol, Sodium Stearoyl Lactylate*

- Appearance: white/yellow flakes
- Percentage of use: 2-6 %
- PEG-free, suitable for green formulations
- It contains high quality Italian Olive Oil

"In vivo" assessment of the soothing and protective efficacy

Galolive Green reduces the erythema index thus proving a soothing effect against skin redness at t72h of about 9% and reduces Transepidermal Water Loss (TEWL)

It possess furthermore a protective effect after the exposure to the irritating agent SLS.

↓

Suitable for Baby Care and Sensitive Skin Formulations

EMULSIFIERS

Galolive® OW

O/W Emulsifier
INCI name: *Polyglyceryl-4 Oleyl Ether Olivate*

- Appearance: viscous liquid
- Percentage of use: 4-6 %
- Cold processable
- PEG-free
- Suitable for fluid and gel formulations

Galehemp® OW

O/W Emulsifier
INCI name: *Polyglyceryl-4Hemp Seedate, Caprylyl/Capryl Glucoside, Aqua*

- Appearance: viscous liquid
- Percentage of use: 4-6 %
- PEG-free
- Most suitable for fluid formulations and gel creams

EMULSIFIERS

Galeside L®

O/W Emulsifier

INCI name: *C14-22 Alcohols, C10-16 Alkyl Glucoside, Cetyl Palmitate*

- Appearance: white flakes
- Percentage of use: 2-5 %
- PEG-free
- 100% natural origin, based on alkypolyglucosides
- Functional Countertype of MontanovL by Seppic

EMULSIFIERS

NEW

Gale 68®

O/W Emulsifier

INCI name: *Cetearyl Alcohol, Cetearyl Glucoside*

- Appearance: white flakes
- PEG-free
- Nonionic emulsifier
- 100% natural origin, based on alkypolyglucosides
- It can create a fluid to thick cream with a rich texture
- Functional Countertype of Montanov 68 by Seppic

EMULSIFIERS

Galolive® WO

W/O Emulsifier
INCI name: *Polyglyceryl-3 Triolivate*

- Appearance: viscous liquid
- Percentage of use: 4-10 %
- Cold processable
- PEG-free
- It creates not-greasy and not-sticky emulsions even if the oil phase is very consistent

Galehemp® WO

W/O Emulsifier
INCI name: *Polyglyceryl-4 Polycastorate/Hemp Seedate*

- Appearance: viscous liquid
- Percentage of use: 5-10 %
- PEG-free
- Excellent gelly and not-greasy textures

EMULSIFIERS

Gale PG4®

W/O Emulsifier

INCI name: *Polyglyceryl-4 Triisostearate*

- Appearance: viscous liquid
- Vegetal origin
- Percentage of use: 1% - 10%
- PEG-free, ideal for green formulations
- Cold processable
- It disperse pearls and pigments homogenously, being perfect also for make-up formulations
- It improves water resistance

Galegloss®

W/O Emulsifier

INCI name: *Polyglyceryl-3 Triolivate, Sorbitan Isostearate*

- Appearance: viscous liquid
- Percentage of use: 4-10% as emulsifier; up to 70% as glossy agent for make-up products
- It can be used as a base for lip products
- Cold processable
- PEG-free
- Wetting and dispersing agent for pigments and physical UV filters

EMULSIFIERS

NEW

Galolive® 90

W/O Emulsifier

INCI name: *Sorbitan Olivate*

- Appearance: waxy solid flakes
- Usage: 5/7% as sole emulsifier in W/O emulsions
- Origin: Chemical synthesis of natural raw materials
- PEG-free, ideal for green formulations
- Improve the dispersion of powders in decorative formulations
- It acts as tone down agent and contributes to waterproofing resistance
- Functional Countertype of Olivem 900 by Hallstar

WATER DISPERSIBLE/SOLUBLE OILS

Galolive® WS

Water dispersible olive oil
INCI name: *Olive Oil Polyglyceryl-3 Esters*

- Appearance: viscous liquid
- Percentage of use: 0,5-10 %
- PEG-free
- Suitable for shower gels, shampoos, micellar waters, make-up removers

Galolive® 30

Water soluble olive oil
INCI name: *Olive Oil PEG-7 Esters*

- Appearance: viscous liquid
- Percentage of use: 0,5-10 %
- Countertype of Olivem 300 by Hallstar
- Mild surfactants for toiletries, co-emulsifier, emollient and solubilizing agent
- Suitable for shower gels, shampoos, micellar waters, make-upremovers

WATER DISPERSIBLE/SOLUBLE OILS

Galeargan® WS

Water dispersible argan oil
INCI name: *Argan Oil Polyglyceryl-6 Esters*

- Appearance: viscous liquid
- Percentage of use: 0,5-10 %
- PEG-free
- Mild surfactants for shower gels, shampoos, micellar waters, make-up removers

Galeargan® 30

Water soluble argan oil
INCI name: *Argan Oil PEG-8 Esters*

- Appearance: viscous liquid
- Percentage of use: 0,5-10 %
- Mild surfactants for toiletries, co-emulsifier, emollient and solubilizing agent
- Suitable for shower gels, shampoos, micellar waters, make-up removers

WATER DISPERSIBLE/SOLUBLE OILS

Galehemp® WS

Water dispersible hemp oil
INCI name: *Polyglyceryl-4 Hemp Seedate*

- Appearance: viscous liquid
- Percentage of use: 0,5-10 %
- PEG-free
- Ideal for toiletries products
- Mild surfactant for shower gels, shampoos, micellar waters and make-up removers.

WATER DISPERSIBLE/SOLUBLE BUTTERS

Galemango® WS

Water dispersible mango butter
INCI name: *PEG-70 Mango Glycerides*

- Appearance: white flakes
- Percentage of use: 0,5-10 %
- It gives an emollient after-feel to water-based formulas (shower gels, shampoos, micellar waters and make-up removers)

Galeshea WS®

Water dispersible shea butter
INCI name: *PEG-75 Shea Butter Glycerides*

- Appearance: white/ivory flakes
- Percentage of use: 0,5-10 %
- It gives an emollient after-feel to water-based formulas (showergels, shampoos, micellar waters and make-up removers)
- “In vivo” Efficacy Test on the Soothing Effect
- Perfect for dry skin

SPECIALTIES

Galesan C®

Our innovative alternative to volatile silicones
INCI name: *Isododecane, Hydrogenated Polydecene*

- Appearance: clear liquid
- Perfect substitute of D4 and D5 cyclic siloxanes which have problems of toxicity and environmental bio-accumulation
- Very versatile use in personal care: suitable for skincare, make-up, haircare
- High refractive index
- Excellent wetting and texturing agent with an amazing spreading
- It gives pleasant silky effect to the skin without leaving a greasy touch

Galesan Ecogreen®

Our plant based alternative to volatile silicones
INCI name: *Tetradecane, Helianthus Annuus Seed Oil, Tocopheryl Acetate*

- Appearance: clear oily liquid
- Color: colorless/light yellow
- 100% plant-derived substitute to volatile silicone oils
- It confers a dry silicone-like texture to the product
- It is ideal to improve spreadability and reduce the overall greasiness of in cosmetic formulatiuons.

SPECIALTIES

Galesol Plus

Natural Solubilizer
INCI name: *Polyglyceryl-4 Caprylate, Aqua, Sodium Lauroyl Glutamate, Decyl Glucoside, Diglyceryn*

- Appearance: viscous liquid
- Percentage of use: 1-5 %
- Cold processable
- PEG-free
- GALESOL PLUS is a natural solubilizer suitable for a wide range of cosmetic lipophilic ingredients, fragrances and essential oils

Galolive® 40

Anionic Surfactant
INCI name: *Sodium PEG-7 Olive Oil Carboxylate*

- Appearance: clear liquid
- Biodegradable anionic surfactant, cleansing and foaming agent
- Highly compatible with common anionic, non-ionic and amphoteric surfactants as well as silicone systems.
- Functional Countertype of Olivem 400 by Hallstar

ACTIVE INGREDIENTS

Galeslime®

Active Ingredient
INCI name: *Snail Secretion Filtrate, Aqua, Phenethyl Alcohol, Caprylyl Glycol*

- Appearance: clear liquid
- Rich in allantoin, elastin, collagen, glycolic acid, vitamins and essential aminoacids
- Moisturizing, exfoliant and healing properties
- Organic certified
- Cruelty-free
- Tailor-made raw material

Galeslime® COSMOS

Active Ingredient
INCI name: *Snail Secretion Filtrate, Aqua, Potassium Sorbate, Sodium Benzoate*

- Appearance: clear liquid
- Rich in allantoin, elastin, collagen, glycolic acid, vitamins and essential aminoacids
- Moisturizing, exfoliant and healing properties
- Organic certified
- Cruelty-free

COSMOS CERTIFIED

ACTIVE INGREDIENTS

Gale NMF®

Active Ingredient

INCI name: *Aqua, Sodium PCA, Lactobionic Acid, Trehalose, Arginine, Proline, Pentylene Glycol, Hydroxyethylcellulose, Pectin, Butylene Glycol, Xanthan Gum, Ethylhexylglycerin, Phenoxyethanol*

- Appearance: Cloudy gel
- Usage: 3-5%
- Mimics the skin's natural moisturizing factor (NMF)
- Provides immediate and long-lasting hydration
- Improves skin's barrier function and elasticity
- Low-viscosity gel, easy to formulate
- Suitable for facial, body, and after-sun care products

Our partners

JRS Fibers for Life.

JRS, J. RETTENMAIER & Söhne Group is a global manufacturer of natural ingredients, established in 1878. They create renewable vegetable raw materials, such as cereal and fruit fibers, wood and the cellulose derived. For personal care, high-functional cosmetic cellulose with different particle sizes, with a variety of skincare and makeup applications.

JOJOBA VALLEY

Jojoba Valley has been producing jojoba oil and derivates for almost 20 years, and we have been official distributors for the past 5 years.
They produce Golden/Colorless Jojoba Oil, Organic Jojoba Oil, Jojoba Butter, Squalane-based Jojoba Butter, Jojoba Wax.

Naroon EFFECT PIGMENTS

Backed by the strong technical support and obvious price competitiveness, **Naroon** provides color users with a wide range of effect pigments.
Naroon pearls have always been synonymous of purity and color intensity.

3V SIGMA

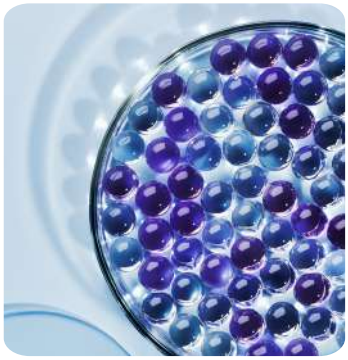

3V Sigma is an Italian leading global producer of specialty chemicals with approximately 500 employees.
Their personal care portfolio includes: rheology modifiers, polymeric emulsifiers, UV-filters, conditioning agents, skin protectant, preservatives and antimicrobial, etc.

BK PRISM BK Solutions and Specialities

BK Prism offers a wide range of colorants, pigments and dyes for the cosmetic industry, personal care, but also food and home care.

Shanghai Puen Biochemical Technology Co., Ltd. is a professional company producing and selling cosmetic particles, including spreadable essence particles, non-spreadable satin particles, emulsion particles, essence particles, color-changing particles, etc.

Since its beginning in 1982, Umang has grown to be a well known comprehensive global solution provider in its field of expertise.
Encapsulated solutions (oils, plant extracts, flavors, fragrances and actives) for personal care use.

Austrian based biotech company focused on R&D and manufacturing of natural extracts for the personal care, cosmetic and health industry.
ALPIN HEILMOOR EXTRACT™ (AHE), a multifunctional bioactive ingredient for skin care and hair care.

Kangcare Bioindustry Co.,ltd. develops the highest-performing active ingredients with skin whitening and brightening, moisturising, anti-UV, acne removing, freckle dispelling and anti-wrinkle effects.

Werlchem is a Chienese manufacturer of UV Filters.

Mexi Aloe Laboratorios is the leader company in Mexico and America Latina in the production and process of organic certified Aloe Vera raw materials, supplying raw materials to the most important companies and laboratories in the Cosmetic, Food, Pharmaceutical and Personal Care Industries all over the world.

Founded in 2000, in Chuzou (China), **Grea Minerals Co., Ltd.** is a supplierof sericites and micas and integrates R&D, manufacturing and trade, taking the lead in domestic wet-processed sericite industry.
Their portfolio includes Natural Sericite/Mica Powder, Synthetic Mica, Talc Powder, Functional Compound Powder, Surface Treated Products.

Founded in 2002, **Morechem** is a Korean supplier of active ingredients from various natural plants and high quality products with solubilization and stabilization technology.
Active ingredients with anti-aging, anti-acne, brightening and moisturizing effect.

Caribbean Natural Products Inc. is a raw materials distributor of personal care and cosmetic products located in New Jersey.
In their product portfolio: Organically certified oils and natural plant butters, exfoliators, plant-derived extracts and actives, clays, scrubs and seaweeds, self-bronzer and suncare products, etc.

Nanogen
Nanotechnology Creator

Founded in 2004 and based on R&D people from Amore Pacific, **Nanogen** is from Korea, Uiwansi.
Product portfolio: Powders (Talc, Sericite, Mica, Synthetic Mica, Titanium Dioxide, Zinc Oxide, Barium Sulfate, Iron Oxide, Starch Derivative) and powder coating, dispersions, active ingredients, preservatives and film formers for water resistant mascaras and eyeliners.

Kincera
Cosmetic Sericite Mica

Kincera Sdn. Bhd. Selangor Darul Ehsan, Malaysia. Its core business is Malaysia mined sericite, a natural fine grained mineral belonging to the mica group.

キンセイマテック株式会社
KINSEI MATEC CO.,LTD.

KINSEI MATEC CO. LTD., Tokyo, Japan, has been producing sericite for manufacturers since 1947.

PNJ

Purcell Jojoba International's success started with a vision by Dr. Hal C. Purcell Sr. in the 70's.
The company is based in Bouse, Arizona Desert, natural habitat of Jojoba trees.
PNJ's mission is to supply customers with the finest Pure Natural Jojoba products available anywhere in the world: Jojoba Golden Oil, Beads and Esters

FUJI-SANGYO CO.,LTD.

Fuji-Sanguo Co., LTD. is a raw materials Japanese company, looking out for an healthy living of people since the establishment of the business in 1954.
Mulberry Root Extract is a natural ingredient extracted from a mulberry's root bark. This active ingredient is capable of modulating the life cycle of the hair, eyebrows and eyelashes, promoting their growth.
