**PARK HYATT TOKYO TO REOPEN IN OCTOBER 2025
- A TIMELESS CLASSIC REFINED**

TOKYO (November 11, 2024) – In celebration of its 30th anniversary (July 9, 2024), [Park Hyatt Tokyo](#) paused operations on May 8, 2024 to undergo a 17-month refresh. The project is revitalizing the hotel's public spaces, event areas, restaurants and bars, while modernizing its technical infrastructure and enhancing the comfort and convenience of its guestrooms. As part of these enhancements, Park Hyatt Tokyo will reduce its room and suite inventory from 177 to 171, introducing a new suite category, while refining its iconic New York Grill & Bar perched on the 52nd floor and Japanese restaurant Kozue to their original designs.

In collaboration with the award-winning, Paris-based design firm [Studio Jouin Manku](#), Park Hyatt Tokyo's updated hotel experience pays homage to the beloved design philosophy of the property's notable original interior designer, John Morford, and the artistic expression of the Park Hyatt brand. Designer Patrick Jouin and architect Sanjit Manku, along with their team of 50, have developed a distinctive approach on transforming historic spaces across the globe to blend the past with the present. Their work leading the refreshed design of Park Hyatt Tokyo is guided by a deep respect for both Shinjuku Park Tower and to the hotel's long history, drawing on a diversity of expertise, scales and spaces to ensure a seamless connection between architecture, interior design and décor. The focus of this project is to honor the hotel's timeless character, while ensuring Park Hyatt Tokyo continues to offer a highly personalized and luxurious experience that transcends across generations. Signature design elements such as the guestroom layout and the iconic black-anthracite contrast in the furniture will be retained, while the signature green carpet palette has been lightened for a more contemporary elegance.

"We hope that when guests return, they will recognize the hotel's spirit, while also sensing a renewed energy," shared Patrick Jouin, designer and co-owner, Studio Jouin Manku. "The experience will feel familiar, yet subtly transformed – remaining true to the minimalist style that has always defined Park Hyatt Tokyo, but with new layers of joy and sensuality."

"It's like a film remake: the same story, reimagined by different generations," added Sanjit Manku, architect and co-owner, Studio Jouin Manku. "The deeper you explore, the more you'll notice a thoughtful balance – refined in a way that will remain relevant for another 30 years."

Fredrik Harfors, General Manager of Park Hyatt Tokyo said, "As we prepare to pen the next chapter of Hyatt's first Park Hyatt in Asia, we can assure you that the hotel remains a timeless classic, and the team's dedication to providing a highly personalized experience remains unchanged. It's with great enthusiasm that we prepare to reintroduce Park Hyatt Tokyo to Japan and the world."
