A Story of American Ingenuity

West Coast Corporation founder W.R. Lummis invented the Original KEY-BAK® Self-Retracting Key Reel in 1948. As a switchman on the Pacific Electric Railway in Los Angeles, he saw brakemen and switchmen injured when their dangling key chains were caught on moving trains.

Lummis had an idea for a reel that would keep keys within reach at the wearer’s side, safe from snagging on moving rail cars and machinery. His idea became the first KEY-BAK®.

Over 70 years after the first KEY-BAK® was produced, millions are in use worldwide in more than 20 different professions. West Coast Corporation continues as a solid, employee-owned company, creating high-quality products people depend on daily.

Proudly Servicing Hard Workers Everywhere

ORDERING GUIDE

Order by "PAC ITEM#" or "BULK#"

PAC items are packaged for resale, most often in clamshell.

BULK items are shipped in a sealed polybag or loose depending on product. Items can be packaged in a sealed polybag with printed UPC and part numbers upon request. Additional fee may apply.

Typical items are differentiated by how they attach to the user (Attachment), retracting cord type (Extension Material), retracting cord length (Extension Reach), and reel spring strength (Retraction Force).

Ideal load for retractors varies by user preference. "IDEAL LOAD" and "HOLDS" columns are provided as a general guide only.

QUIK-CONNECT™

KEY MANAGEMENT SYSTEM

QUIK-CONNECT™ is available in 4 different sizes to accommodate a single key all the way up to 24 keys on one end fitting. 6, 10, 15 and 24 Key systems have varied retraction force and cord lengths engineered for optimal performance. All 4 retractable key-chains come with a sturdy zinc alloy carabiner that clips to almost anything. 6 and 10 key versions are available with a belt clip.

The reliable Quick Change end fitting is interchangeable across all models and easily snaps on and off with an audible “click” that lets you know your keys are safe and secure.

IMPROVED KEY MANAGEMENT!

MADE IN USA WITH GLOBALLY SOURCED MATERIALS

For large key cabinets, bulk packs of fittings without split rings or key tags are available.

AVAILABLE WITH YOUR COMPANY LOGO

LOCK OUT SWITCH ON 15 AND 24 KEY RETRACTORS

Added quick change fittings are available for commercial key management needs

TOOLMATE® TOOL TETHERS

With only minimal retraction force, the TOOLMATE® self-retracting tool tethers keep the tethers as short as possible while not making the tool more difficult to use.

Effectively solving snagging and entanglement problems known to users of traditional tool lanyards.

Certified to ANSI-121
TOOLMATE® retractable tool tethers are the first to be certified to ANSI /ISEA 121-2018.

Safety Features

To ensure the utmost in safety, we have included a tell-tale in the nylon strap. This quickly identifies if the unit has been compromised so it can be taken out of service.

3rd Party Tested

All KEY-BAK® PRO TOOLMATE® units are tested and verified through a third-party testing facility to a 2:1 safety factor.

TOOLMATE® LINK ATTACHMENTS

Many tools are not tether ready. Instead of replacing the tool before it's time, KEY-BAK® offers a line of tool attachments that make them ready to tether and prevent harm.

All TOOLMATE™ Link tool attachments are rigorously proven by dynamic drop 3rd party testing to a 2:1 safety factor.

CERTIFIED ANSI-121

Attaching to your tool is easy with cord loop, strap loop and strap+tape options.

**With over 70 years in business, when we say
“Lifetime Service Policy,” we really mean it...**

“In 1980, I became a franchised Snap-On Tool dealer in the Chicago area. The first thing my field manager gave me was a KEY-BAK key reel for my delivery truck and keys. My first thought was, “How long will this new device last?”

Well, I am no longer a Snap-On dealer, but I have used my Original KEY-BAK retractor every day since then. It’s been on my belt for 34 years!

Sadly, this past week the spring has failed and I will have to retire this fine tool. I am sorry that I ever questioned the quality of your device. It truly lasted longer than I ever could have imagined.” - C.N.
