Innovative. Versatile. The original.

PROVEN QUALITY SINCE 1530

For almost 500 years, the name Prym has been standing for proven quality products made of metal. Through forward-looking diversification and enhancement of the product portfolio, we have successfully mastered our way from the 16th to the 21st century, becoming one of today's oldest family-owned businesses in the world.

1 Pioneer Since Centuries

With the patent application of the double S-spring fastening technology in 1903, Prym began its journey as manufacturer of metal fasteners and accessories for apparel. The improved press fastener quickly conquered the market as practical must-have in fashion and became the industry standard that is still valid today. As Prym Fashion, we are the leading global provider of high-quality fastening solutions and accessories for the fashion industry today. From press fasteners, sew-on buttons, jeans buttons, to eyelets & washers, decorative accessories and more, we offer a wide range of customizable solutions for all kinds of fashion and technical applications, particularly impressing with a durable, function-oriented and innovative design.

2 Expertise To Rely On

Thousands of customers worldwide already rely on our certified quality solutions. This trust in our expertise and products drives us every day to give more than just our best to deliver exceptional services and develop forward-looking innovations. Based on our market and technology expertise built up over generations, we are able to identify changing needs and trends at an early stage. This enables us to further expand our portfolio and provide you with the customization you need to achieve your goals without compromises, because your challenges are our job. Thanks to our global network, we can support you with high-quality solutions no matter where you are – always tailored to your individual needs, not only with regard to design and material aspects, but also to functionality and processing.

3 Supporting Your Vision

We do not only focus on the solutions, but also on your entire supply chain to provide you with reliable deliveries, making your life as easy as possible. With our end-to-end approach, we can guide you from conception to after sales, ensuring you maximum efficiency and reliable operability to best support you in realizing your visions and goals. This also includes our range of attaching technologies to guarantee the secure and efficient attachment of all our products.

4 Enabling Impactful Innovations

With our customized solutions, we aim not only to support you keep up with the latest trends while meeting highest quality standards, but also to empower you to shape the future of a more sustainable and responsible fashion design. Therefore, we are making every effort to develop new, environmentally friendly fastening solutions and are committed to sustainable manufacturing to minimize our impact on the environment in areas such as galvanizing, wastewater treatment or recycling. Whatever you need to realize impactful and sustainable innovations, we are here to support you with our technology and development expertise to help meeting the fashion demands of tomorrow.

5 A Rock In The Surf

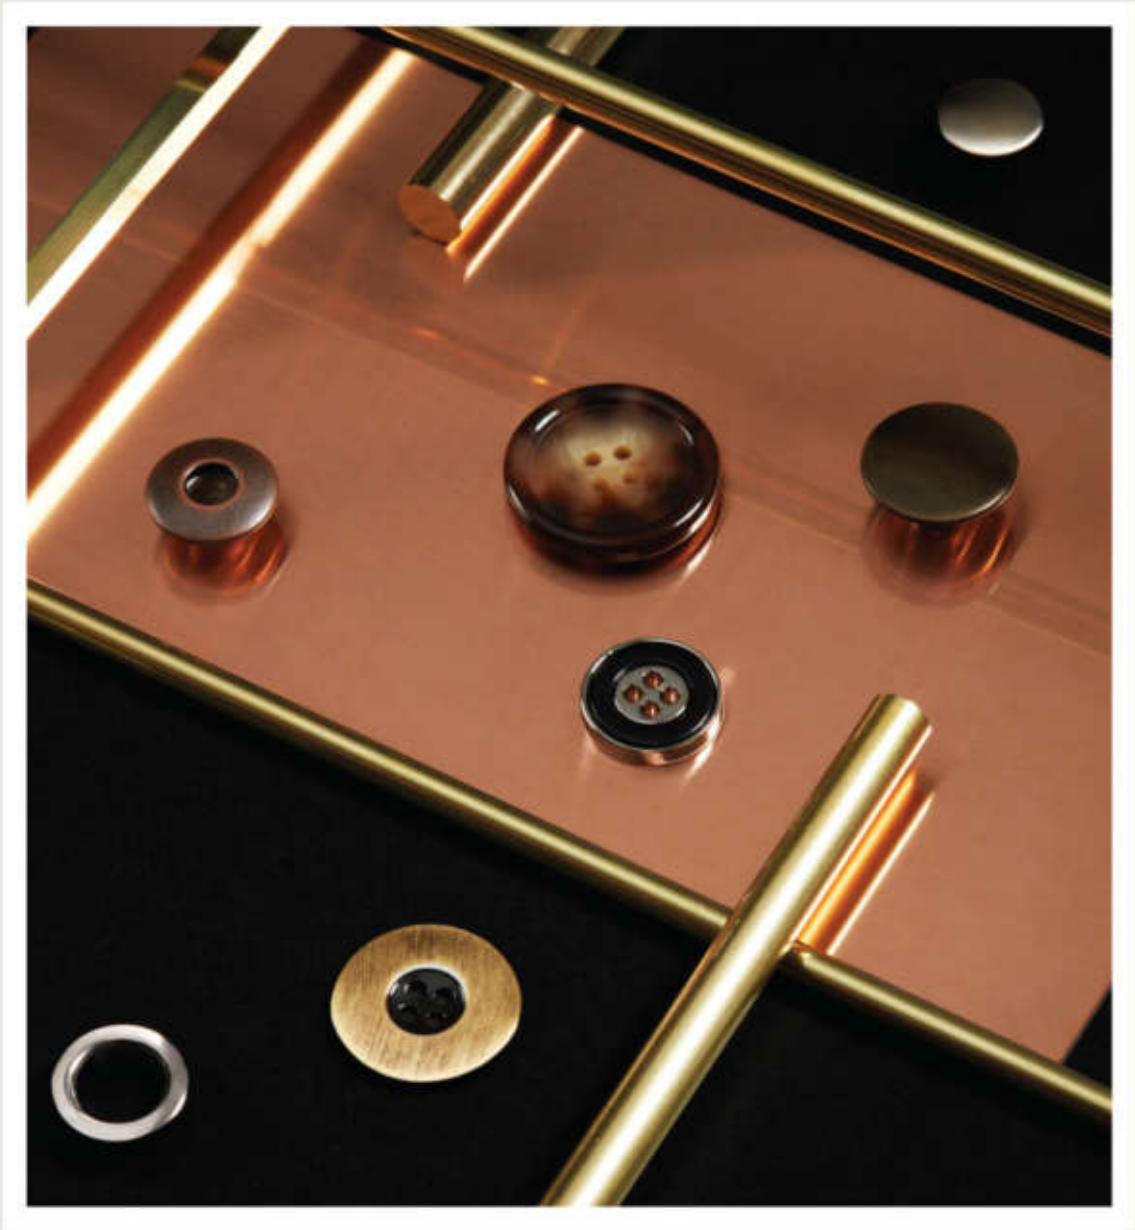

In our 500 years of history, we have already been confronted with a lot of unexpected challenges. From economic crises to natural disasters, we already have had to deal with the unforeseen many times. 500 years of experience have shown us what it means to restart: we have adapted to survive, rebuilt to operate, and changed to stay ahead. That's why, we are not afraid of hurdles; we are prepared to tackle them with confidence to be the trusted partner you need – at anywhere and any time.

Together, we can further shape the future of the industry and make a lasting difference for future generations. Are you ready to join us on this journey?

Premium Apparel Impresses With The Highest Quality & Contemporary Design

PREMIUM

Premium In Every Respect

Superior, stylish, enduring – the requirements for quality and design are high, when it comes to premium apparel. It is the special combination of high-quality materials and contemporary design that drives consumers’ expectations. Therefore, premium apparel requires premium fasteners and accessories, not only in terms of quality and durability, but also to set specific design accents. With our broad portfolio of customizable fastening solutions and accessories, you get full design flexibility to add the special premium detail, making your collection a true eye-catcher.

With Attention To Detail

From high-quality and custom-made solutions to various design options, our wide range of metal and non-metal fasteners and accessories offers you numerous choices to perfectly match your individual premium fashion collection. Available in several materials such as zinc, brass, recycled plastic or sustainable ones like urea, real horn or mother-of-pearl, our market-proven solutions offer

you almost limitless combination possibilities, always with superior quality and durability. Innovative finishes further expand your design options, enabling any style from polished to matte - whatever suits your collection best.

Enjoy The Highest Design Flexibility

From metal press fastener systems such as S-spring, Ring-spring and T-lock, and jeans buttons like Flex tack and MLG buttons, through sew-on buttons, buckles and zipper pullers to cord ends and hooks, with our market-proven solutions for premium applications, you always have plenty of choices to add the perfect special extra to your collection - both in terms of quality and design.

Ralph Lauren
(American fashion designer)

From High Functionality & Comfort To A Fashionable Look

OUTDOOR

High Performance Under All Conditions

Durable, resistant, fashionable – from casual clothing with some functional character to performance wear for outdoor activities and motorcycling, outdoor wear requires a broad range of functionalities. Some should keep warm under extreme conditions, others need to be breathable or waterproof and still others are to protect the wearer against injuries. Our range of high-functional fastening systems for outdoor wear offers you numerous market-proven solutions also for the toughest conditions.

No Boundaries For Your Collection

With our broad portfolio of high-functional solutions you can meet all your outdoor wear requirements without compromises. From high durability, safety, and

innovative finishes to functional details like low noise, magnetic or reflective solutions, our products are made to set global standards in technological innovation, while always combining high performance, safety, and fashionable design. Available in different materials including brass, silicone and thermoplastic, all our outdoor wear solutions are exceptionally durable and resistant to all washing and finishing processes.

Discover Limitless Performance Opportunities

From metal press fastener systems such as Coin Stud, silent snap and magnetic snap, through plastic snaps, zipper pullers, patches, to stoppers and cordlocks, our high-performance portfolio for outdoor and motorcycle apparel offers you all performance opportunities you are looking for to meet your functionality, safety, and design needs.

Seasonal Fashion Development On Budget

MASS PRODUCTION

Fast Response To Seasonal Trends

Cost-efficient, up-to-date, trendy – mass-produced ready-to-wear fashion is primarily characterized by seasonality and cost sensitivity. The main challenge is to quickly turn latest fashion trends into new collections at the most affordable price. With our broad range of fashion-conscious fasteners and accessories, you will have plenty of options for your next mass collection, allowing you to stay ahead of the game without breaking the bank.

Trendy Solutions At A Reasonable Price

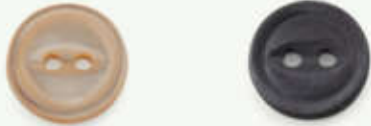

From eye-catching and stylish designs through sustainable and innovative materials to fashionable surfaces and finishes, we support you with a broad range of trendy fastening solutions and accessories

that can be available in time for your next collection. Available in numerous colors, finishes and materials – from brass through faux horn or faux pearl to recycled PET – our solutions are easy to use for different garment styles. Thereby, they always combine proven quality and contemporary design, enabling you to fast respond to seasonal trends while keeping your budget.

Discover The Design Possibilities For Your Next Collection

From press fastener systems such as Gripfix, S-spring or Ring-spring, through sew-on buttons, shanks and rivets, to rings and sliders, eyelets and washers, with our market-proven solutions for mass fashion, you have numerous opportunities to concretely meet the needs of your mass collection – both in terms of time to market, price performance and design.

REMARK: 2-Hole & 4-Hole Options Available

WALK THE TALK IN SUSTAINABILITY

Sustainability is at the core of what we do. Through concrete actions, we are committed to making a real difference in the world.

OUR 3 PILLARS

- 1 Engineer Our Future
- 2 Conserve The Environment
- 3 Fulfill Sustainability Promise

1 Engineer Our Future With Sustainable Products

We believe that the sourcing of eco-friendly raw materials is the first step towards creating a sustainable future. From recycled metals and plastics to a wide variety of bio-based materials such as shell, horn, urea and more, our sustainable portfolios are made from materials with the least environmental impact.

It is not only about the materials we use – it is also about offering the solutions that support your sustainability goals. That's why, we develop a series of sustainable options including 100 % recyclable fasteners and detachable jeans buttons. With a variety of colors and fashionable styles to choose from, you don't have to compromise on style for sustainability.

2 Conserve The Environment Through Sustainable Manufacturing

Eco-friendly manufacturing is critical to drive sustainability forward. That's why, we are committed to investing in the environmentally-sound production processes to meet the most stringent sustainability standards in the market. From waste management to chemical use, water treatment to energy consumption, we constantly looking for ways to reduce our environmental impact.

Our dedication is reflected in the manufacture of our products, such as L.I.F.E. (Low Impact Fastener Ensemble) certified metal and plastic fasteners. These sustainability innovations are engineered to significantly lower the environment footprint compared with conventional manufacturing processes.

LESS WATER
-82% to 94%

LESS ELECTRICITY
-37% to 66%

LESS CHEMICALS
-76% to 93%

LESS WASTE
-48% to 71%

*This uses data from the Sustainability Properties of L.I.F.E. Report for PRYM FASHION ITALIA SpA.

3 Fulfill Sustainability Promise In Traceable And Transparent Way

At the heart of our values, we take sustainability seriously in various aspects of our business. We regularly track our environmental and social performance across our supply chain to seek opportunities for improvement and promote transparency to our stakeholders.

Our recent participation in the amfori Business Social Compliance Initiative (BSCI) and Business Environmental Performance Initiative (BEPI) allows us to thoroughly evaluate our key suppliers to ensure ethical treatment of workers and boost the environmental sustainability of the supply chain.

TRANSFORM FASHION DESIGN WITH THE POWER OF DIGITIZATION

In this era of rapid technological advancements, the fashion industry undergoes a digital transformation. We believe 3D modeling technology is the key to stay ahead of this game. With our cutting-edge 3D modeling solution, we empower you to streamline your product development and design process like never before.

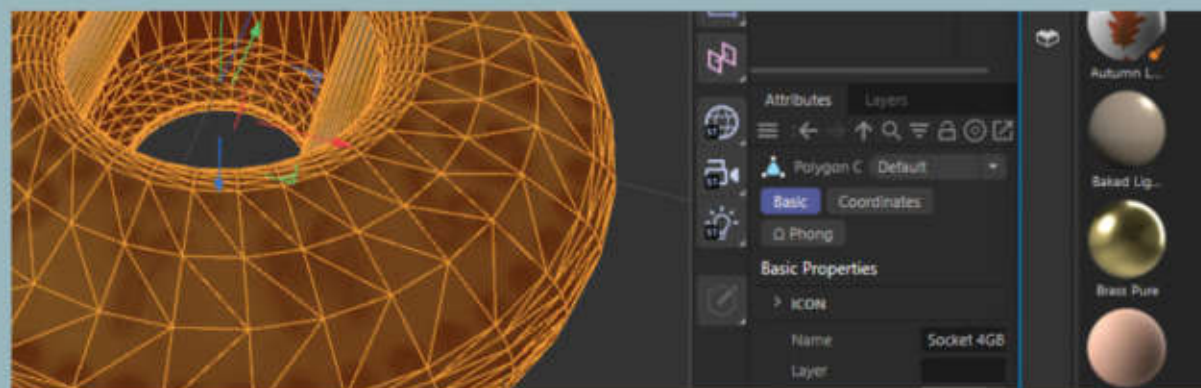

YOUR GATEWAY TO SUSTAINABLE AND STREAMLINED PRODUCT DEVELOPMENT

From texture to geometry, color to finish, our digital 3D models of products offer a realistic look and feel that is true-to-life. It is a web-based solution that provides real-time access to the product development process, allowing for streamlined design and a shorter sampling lead time, while reducing sampling costs.

Our solution also allows for individual customization and easy collaboration across different locations, opening up new possibilities for design creativity. By embracing digitization, we can support your sustainability goals by reducing waste and carbon footprint, while providing a more effective and efficient approach to development.

So, what are you waiting for? Join us on this exciting journey into the future of fashion.

Technology

MAXIMIZE YOUR PERFORMANCE WITH SOPHISTICATED TECHNOLOGY AND OUR GLOBAL TECHNICAL SUPPORT

We understand that technical excellence is the key to success in the industry, which is why we offer a comprehensive range of attaching technology solutions engineered to meet your specific requirements and exceed your expectations.

Our cutting-edge attaching machines are designed to work seamlessly with our fastening systems, ensuring a secure and reliable connection between your garment and our products. No matter how complex your needs may be, our solution will empower you to operate with confidence and unlock new levels of performance.

When you work with us, you will benefit from our worldwide technical services that span across regions. Our extensive services include everything from datasheet verification and product assessment, through machine installation and training, to troubleshooting and on-site inspection. Our team of technical experts is dedicated to providing you with the timely support you need to achieve success, anywhere you go.

Our Global Presence

UNLOCK YOUR BUSINESS’S FULL POTENTIAL WITH OUR GLOBAL NETWORK

We believe that the world is our market. That’s why we built a global network of production sites and sales hubs that span across EMEA, Asia Pacific and America. Our team of experts are strategically positioned in various global hotpots including **Germany, Italy, Turkey, Hong Kong (China), and New York (USA)**, to

deliver exceptional products and services to our customers, no matter where you are located. Whether you are seeking to expand your offerings or looking to enter into a new market, our global network and expertise can take your business to the next level.
