RED SEA

# THE TOWN

For travel aficionados with the Red Sea on their bucket list, looking for peace of mind, beauty and an exceptional array of day and night activities, El Gouna is a one-of-a-kind year-round, fully-fledged, world-class Red Sea town that offers curated experiences catering to all interests.

From a man's dream that started over 30 years ago, a fully-fledged town ashore the beautiful Red Sea coast has evolved. A thriving town that is home to a multi-cultural community of over 25000 residents, 18 hotels, 100+ restaurants and bars, a large array of top-of-the-line sports and leisure facilities, 2 professional golf courses, and a full range of European-standard services.

Ideally situated only 22kms away from Hurghada International airport, El Gouna borders a beautiful beach stretch of 10km and straddles a series of 20 islands surrounded by picturesque lagoons and crisscrossed by arched, cobbled bridges.

Attractively landscaped parkland gardens separate the hotels from the villas and apartments across the town, which itself covers an area of more than 35 million square meters—the equivalent of 5,200 football pitches.

Famed as the town #WhereSunshineLasts, El Gouna has the perfect weather conditions for kitesurfing, which makes it a hugely popular pastime. No fewer than nine kitesurfing centers offer tuition and facilities to match individual standards, not to mention nine PADI certified dive-centers.

Even if underwater adventures and soaring through the skies is not appealing, there are sufficient alternative activities, enough in fact to do something different every day during a week's stay, including deep sea fishing, windsurfing, horse-riding, go-karting, tennis and golf.

Add to that it's year-round sun, internationally acclaimed environmental and hospitality awards, and easy access to Egypt's most dramatic cultural attractions, the centrally managed town of El Gouna is a town that #YouWillNeverWantToLeave.

# PERFECT ON ALL LEVELS
