Company
Overview

Introduction

1 General

- ❖ **Name** : Dx&Vx
- ❖ **Listed in** : KOSDAQ (180400)
- ❖ **FTE** : 125
- ❖ **HQ** : Seoul, South Korea
- ❖ **Homepage** : www.dxvx.com

2 Business

- ❖ **Precision Medicine**
 - Lifelong Genomic Diagnosis Service
 - Microbiome and Multiomics CRO
- ❖ **In-vitro Diagnostics (IVD)**
 - CDx, NGS/PCR diagnostic kit
- ❖ **Pharmaceutical / Medical Equip. CSO**
- ❖ **Microbiome**
 - New drugs, Healthy supplement
- ❖ **New Drug Development**
 - Innovative vaccines
 - Anti-Cancer, Anti-obesity, Antibiotics

3 Affiliates

- ❖ **Affiliates** : COREE Group (Hong Kong)
- ❖ **Subsidiary** : Korea BioPharm 100%
: Avixgen 63%
: OVM 43%

4 Offices

❖ **HQ & IVD GMP** : Seoul

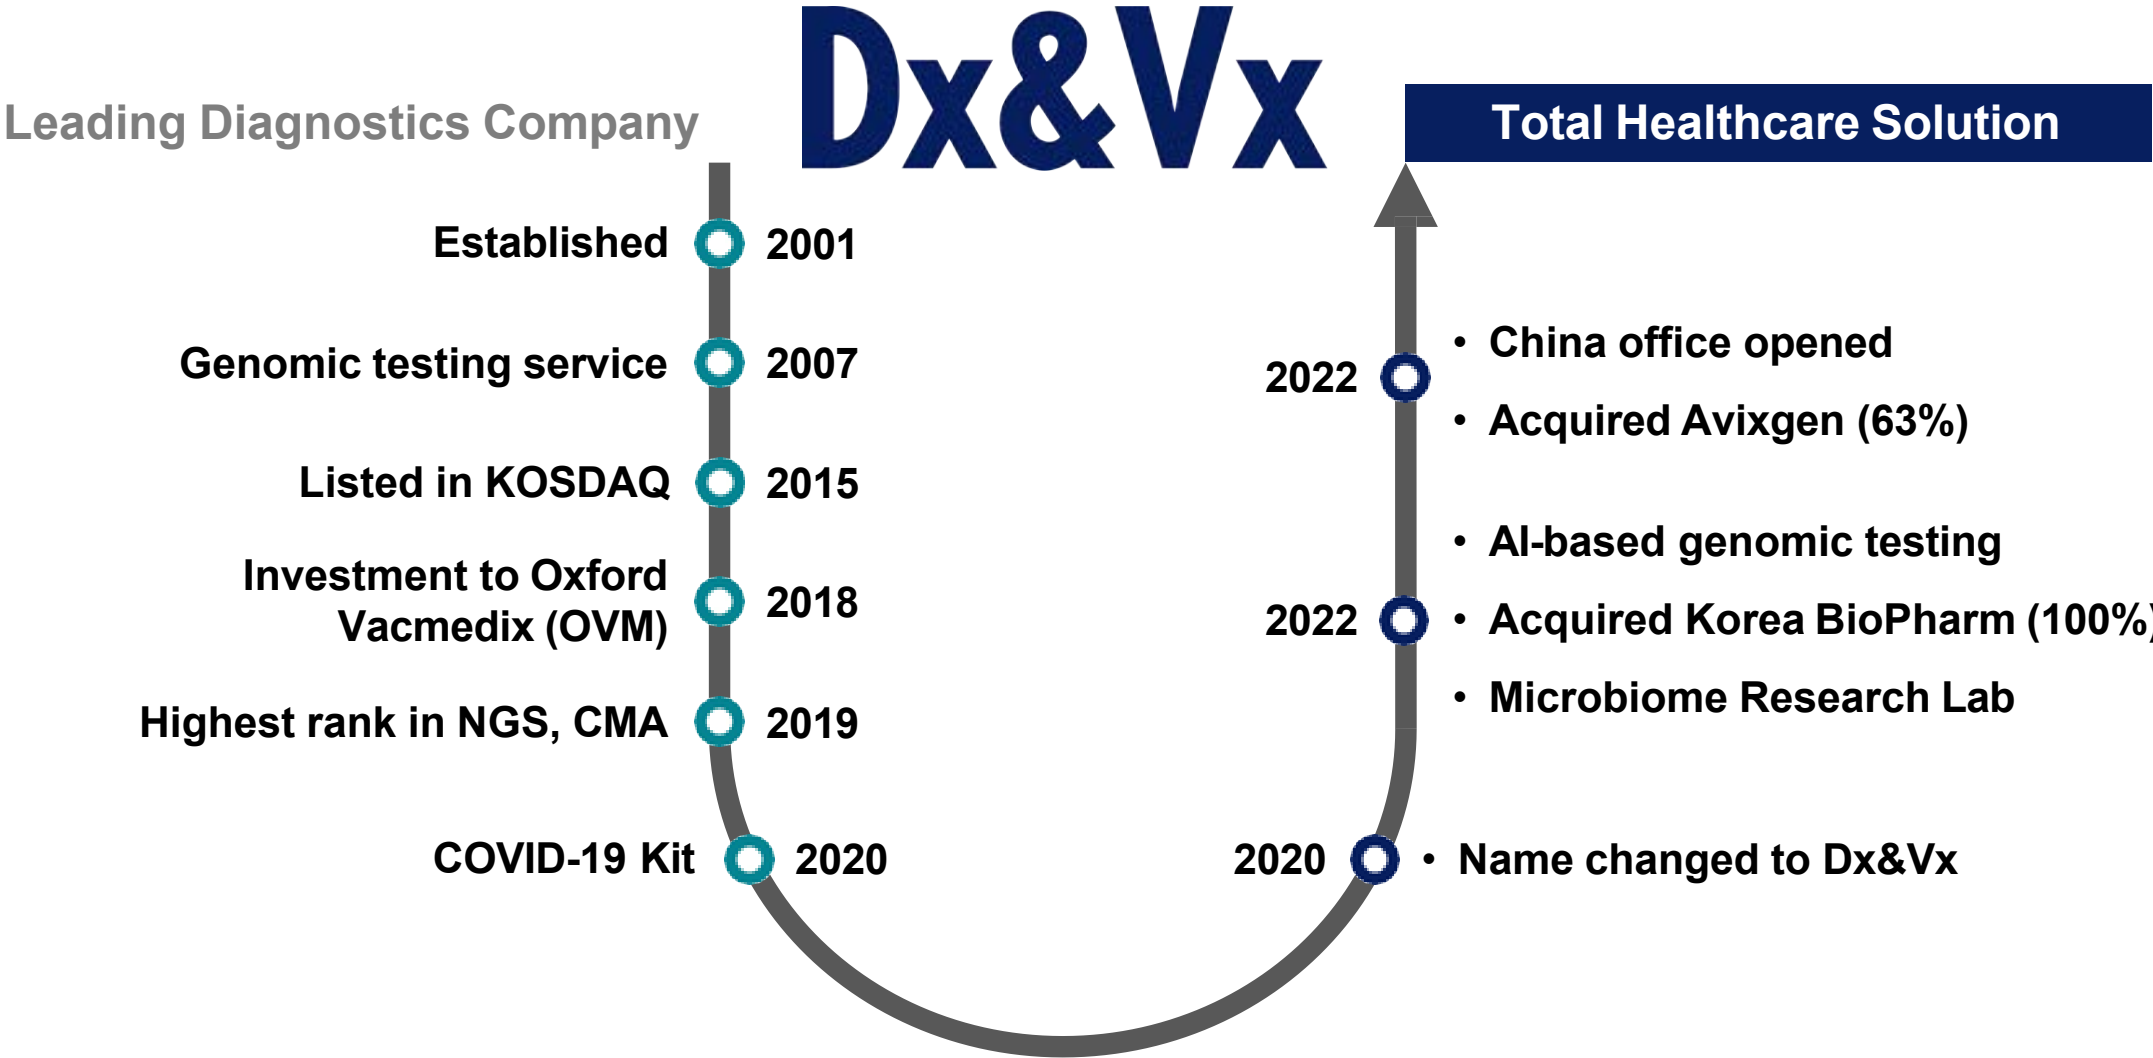

❖ **Molecular Dx/IVD** : Seoul

❖ **Microbiome Lab** : Seongnam

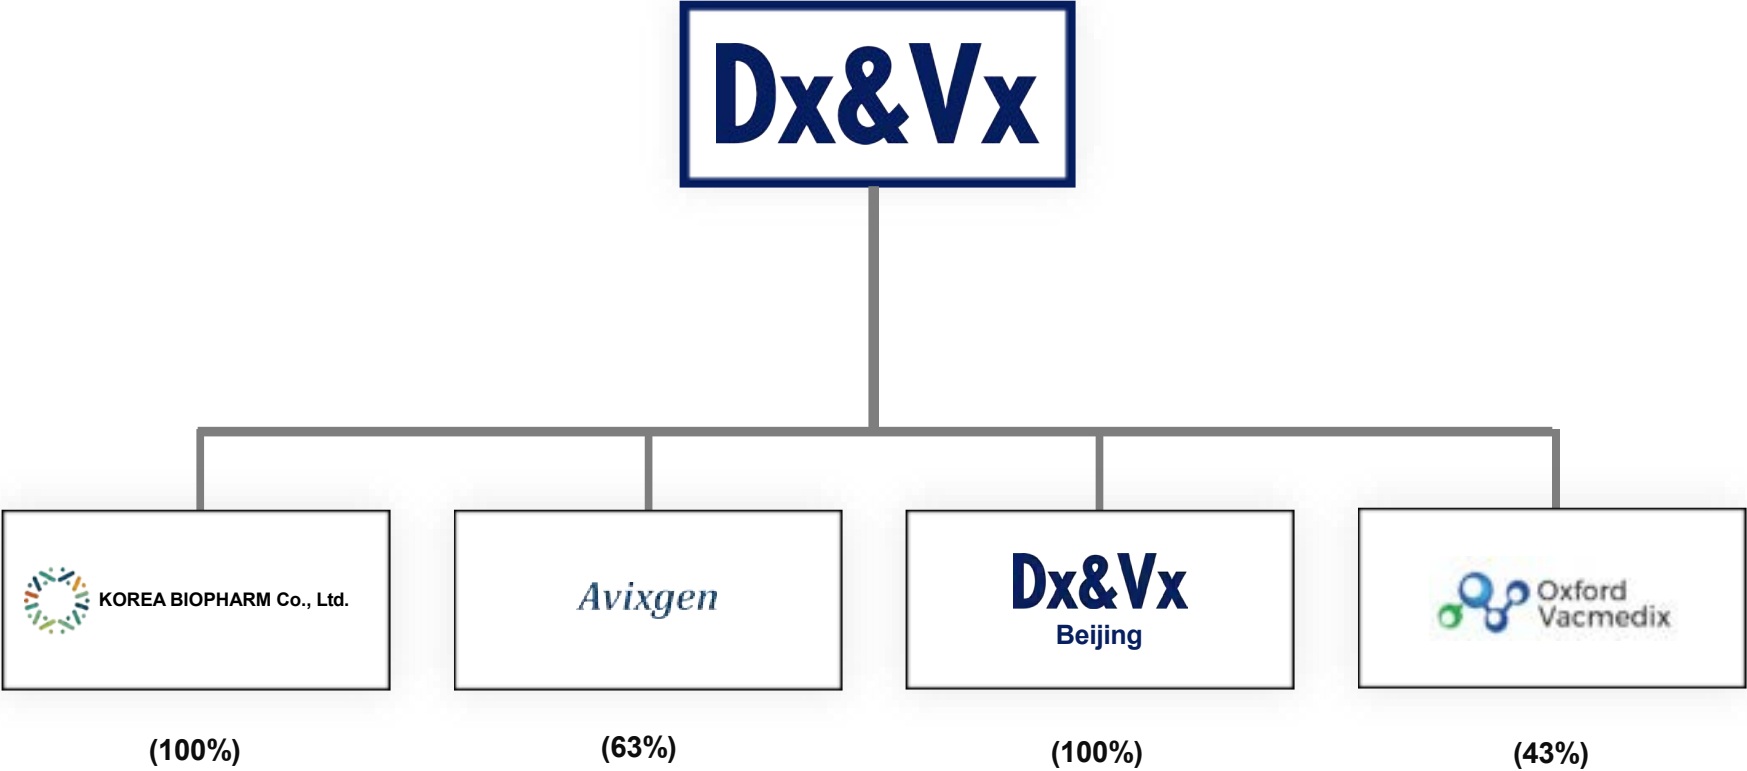

❖ **Food Supplement** : Jincheon

GenomeCheck
(Genomic CRO)

GenomeCheck Service

From Prenatal through Adulthood

A Comprehensive Genomic Journey

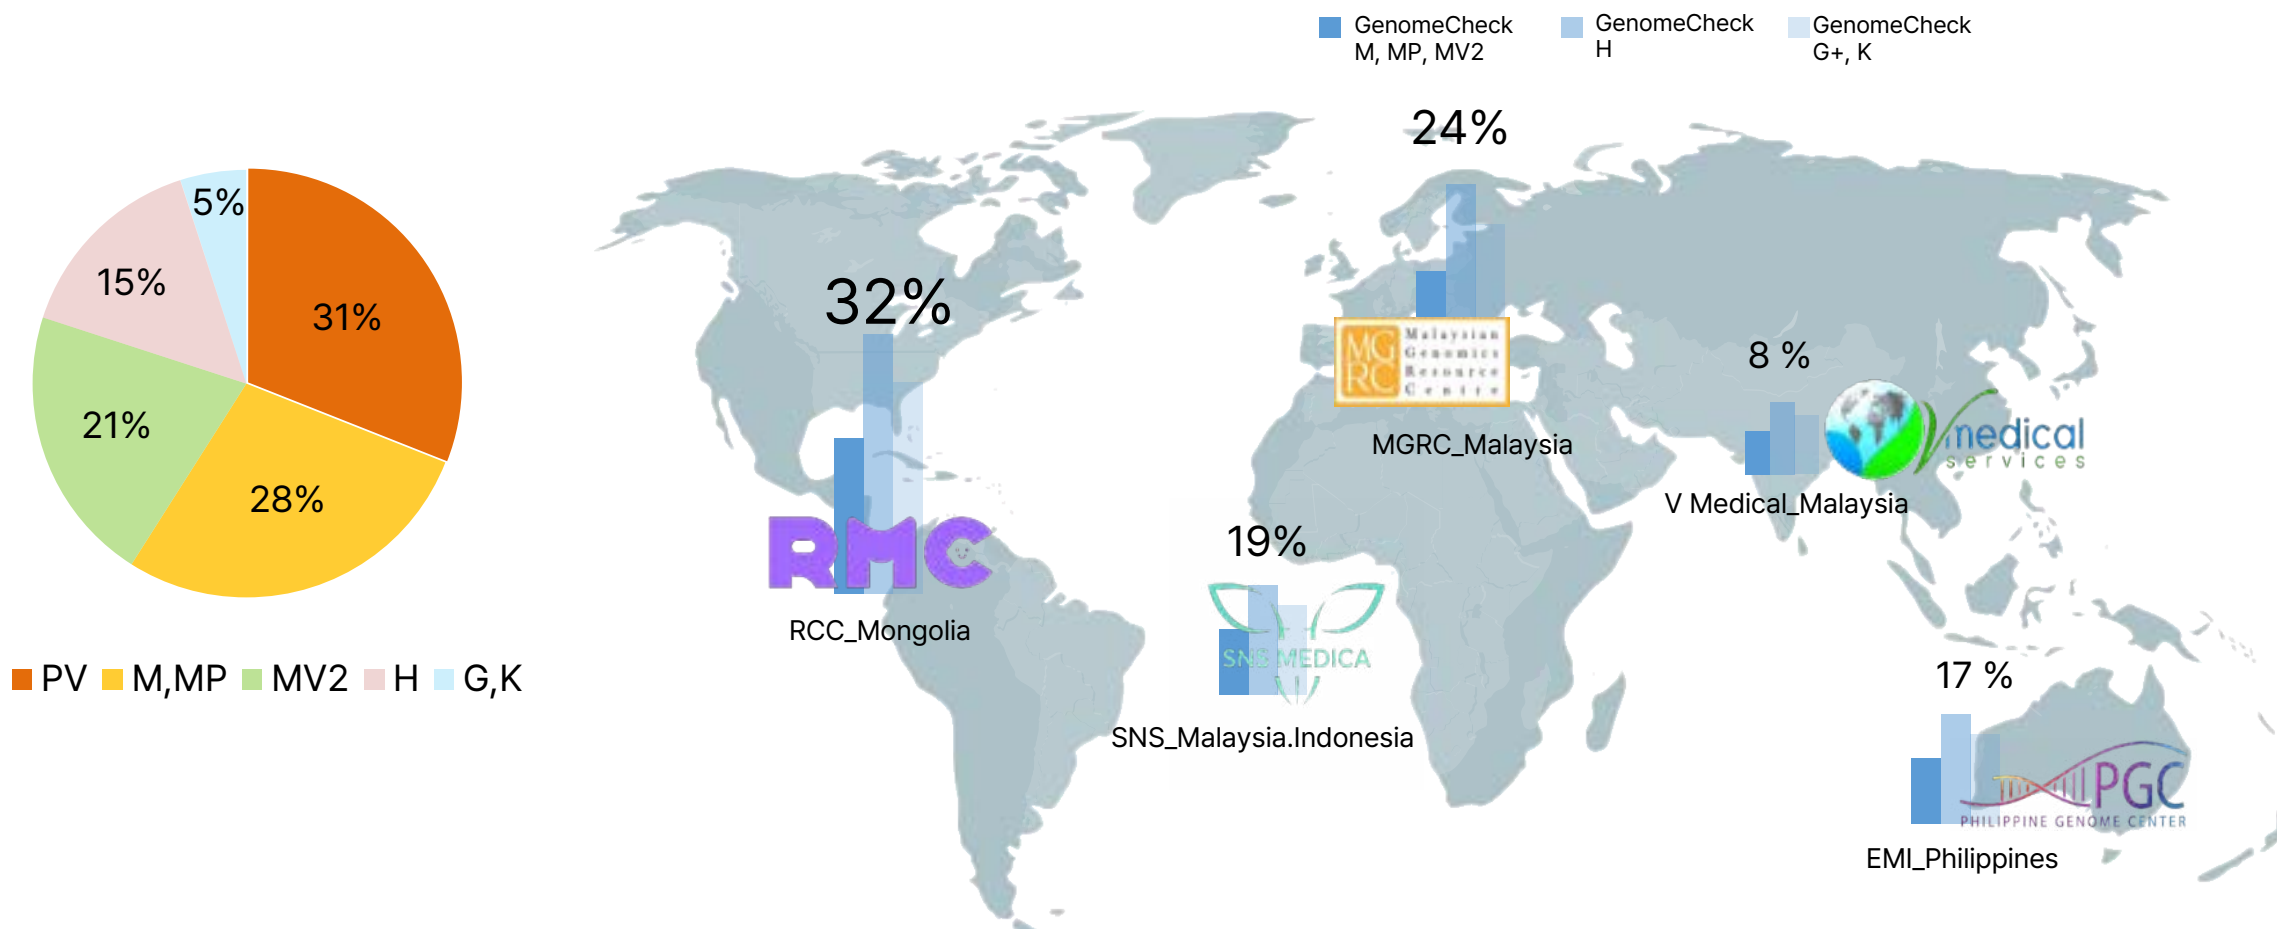

Comprehensive genomic testing that supports precision healthcare — from prenatal screening to adult disease management

	Pre-implantation Genetic Test (PGT)				Non-invasive Prenatal Test (NIPT)
Services	PV	PGT-M	niPGT	ERT	M V2
What	Selection of embryos with normal chromosomal composition			Determines the window of implantation (WOI)	Screening for numerical and structural abnormalities in the fetus's genome
When	3-5 days after embryo fertilization		4~5 days after embryo fertilization or frozen	• 7 days after ovulation or hCG injection • 5 days after progesterone administration	10 - 24 weeks of pregnancy
Specimen	Embryonic cells		Embryo culture media	Endometrium tissues	Maternal blood
How	NGS				NGS
Features	• Genetic variant testing for aneupligy • Increase pregnancy success by screening for embryos with normal chromosomes • Turn around time: 1 day • PGT-A (pre-implant genetic test for aneuploidy)	• Genetic variant testing for single-gene disorders • Covers >1,200 single-gene disorders • Validated high accuracy (99.9%) • Exclusive L/I from Yikon Genomics	• Non-invasive PGT minimizes the risk of damage to embryos • Comprehensive assessment of embryo implantation potential using AI analysis • Improved identification of Mosaicism • Exclusive L/I from Yikon Genomics	• Determines the window of implantation (WOI) to establish a personalized embryo transfer plan • Applicable to patients with recurrent implantation failure (RIF), polycystic ovary syndrome (PCOS), or endometriosis • Gene expression analysis of 200 genes to evaluate endometrial receptivity at the molecular level • Exclusive L/I from Yikon Genomics	• 6 autosomes, 4 sex chromosomes, microdeletions/microduplications – Total >200 genetic disorders tested • World-class NGS technology and equipment- Highest test stability in Korea (1.05% test failure rate as of 2024) • Free amniocentesis or CVS genomic test in case of chromosomal aneuploidy • Free genomic amplification karyotype test for microdeletions/ duplications exceeding 10 Mb

	Newborn and children	G+ confirmation Test	Miscarriage
Services	G+	K	A
What	Chromosomal numerical & structural abnormalities in neonates and children	Chromosomal numerical & structural abnormalities in neonates and children	Numerical & structural genomic abnormalities in miscarried
When	After birth	As early as 9 weeks of pregnancy	After miscarriage
Specimen	Blood	Blood, Amniotic fluid, chorionic villi, etc.	Products of conception
How	SNP microarray	SNP microarray + Karyotyping	SNP microarray
Features	• Tests for >1,200 genetic disorders • Largest in Korea: >400,000 clinical genomic database • Developed the world's first CMA+NGS analysis algorithm • Published more than 20 clinically validated SCI-papers • 24 patents related to chromosomal testing including microarray method • Free genomic copy number karyotyping for microdeletions/duplications over 10 Mb	• Prenatal chromosomal screening to detect fetal abnormalities early and minimize genetic risk before birth • Rare disease genomic testing for early diagnosis and prevention in adults • Preconception carrier screening analyzes both parents' genomes to assess potential genetic risks during pregnancy	• 40-50% of first-trimester miscarriages are caused by chromosomal abnormalities • Chromosome counting of miscarried fetal tissue-identifies the cause of miscarriage due to structural abnormalities and due to structural abnormalities and provides direction for future pregnancy success • Unlike traditional karyotyping, this approach does not require cell culture and utilizes NGS/Microarray for more accurate

GenomeCheck service is provided to global companies in Mongolia, Malaysia, and Philippines that have signed supply and distribution agreements with Dx&Vx.

GenomeCheck Service

Global Outreach

Chosen as a Participant in the **MEDICA 2024 K-Bio Pavilion Initiative**
as a **Featured Company**

We aim not only to showcase the achievements of the K-Bio Technology Development Project and monitor emerging technological trends, but also to expand the global outreach of our AI-driven drug discovery pipeline, personalized genome analysis service GenomeCheck, and companion diagnostics platform CLIDEX

2025 Korea First Brand Awards in the Blood Sugar Probiotics Category

2025 Korea First Brand

Subject : The largest brand awards in Korea, where consumers directly select the brands that will lead in 2025

Hosted : Korea Consumer Brand Committee

Organized : Korea Economic Daily, Korea Consumer Forum

The Brand for Family Nutrition

Microbiome-based Nutrition series for infants, children, women in their 20s and 30s, and **the whole family's well-being lifestyle**

Hanmi

Inheriting 50 years of beneficial bacteria research and development history from Hanmi Pharmaceutical Group

Infant & Children Series

- Competitive edge of Italy AAT Research Institute's proprietary EU-patented SynterAct technology (European Patent No. EP 3 725 167 A1)

Applying the EU-patented SynterAct Technology from Coree Italy AAT Research Institute

Health & Beauty Series for Women (in their 20s~30s)

- For women's health & beauty market : Diet, Skin, and Vaginal health
- Individually approved functional ingredients verified through clinical trials* (*Individually approved functional ingredients: New ingredients that have been certified for functionality and safety by FDA of Korea)

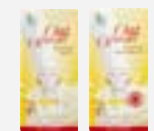

Conducting hospital collaborations and R&D projects through expansion into the US, Europe, and Asia

Middle-aged and Elderly Nutrition Series

- Lineup to meet health needs across the lifespan, including weight-loss products for chronic obesity in 40s and 50s, and menopausal products.

Details of Family Nutrition Series

No.	Commodity	Package	Main Ingredients	Formulation	Composition	Key Features	Price	Launch
1	FormulaMate		Probiotics, Calcium, Vitamin D	Powder	2g x 10 sachets / Box 2g x 30 sachets / Box 2g x 120 sachets / Tube	3 types of the EU- patented probiotics for babies - SynterAct Technology 1:1:1 formulation tailored to children's gut environment - All-in-one formula with 3 functional ingredients necessary for growth and development	-	'23 May
2	Lactobacillus Diet		Probiotics complex of L. Curvatus HY7601 & L. Plantarum KY1032, Zinc, Pantothenic acid, Vitamin D, Vitamin B1	Capsule (HC)	400mg x 30 capsules / Bottle	2 types of fat-reducing diet probiotics, which are individually approved functional ingredients for the first time in Korea - Synbiotics design with 3 types of oligosaccharides + 4 types of dietary fiber - Special container exclusively for probiotics	-	'23 Jun
3	Ca·Mg·VitD Immune Diet		Fingerroot extract powder, Calcium, Magnesium, Zinc, Manganese, Vitamin D, Vitamin K	Tablet	600mg x 4 tablets / 14 packs / Box	- The first in Korea to apply fingerroot extract ingredient recognized for reducing body fat & improving skin health - The first and only functional ingredient composition in Korea - Multi-pack application for convenient intake	-	'24 Jan
4	Diet Lactobacillus		Probiotics complex of L. Curvatus HY7601 & L. Plantarum KY1032, 7 Types of Vitamins	Powder	1g x 30 sachets / Box	2 types of fat-reducing diet probiotics, which are individually approved functional ingredients for the first time in Korea - Among individually recognized probiotics for body fat reduction in Korea, the highest number of 10 human clinical trial indicators improved - Easy to take with 1g ultra-small zero-calorie powder	-	'24 Jun
5	FloraMate		Probiotics, Calcium, Vitamin D	Powder	2.5g x 30 sachets / Box	3 types of probiotics with the EU- patented SynterAct Technology 1:1:1 formulation - Contains patented vaginal-derived probiotics from health women - Contains sub-ingredients specialized for skin health : Hyaluronic acid, Collagen, Elastin	-	'24 Jul
6	ProteinMate		Protein 21g (Isolated soy protein , whey protein concentrate, Hydrolyzed whey protein, Goat milk protein powder, Yeast protein, Oat protein)	Powder	19g x 14 sachets / Box	1:1 blend of animal & plant protein considering digestion speed - Uses of differentiated premium ingredients (Hilmar's whey protein / Solae's soy protein, etc) - Uses the EU-patented SynterAct Technology formulation - Incorporates a nutty flavor based on grain taste	-	'24 Jul
7	Oat Ofmom Original, Half Sugar		Original : Oat, Isolated Soy Protein, Isolated Pea Protein, Banana concentrate Half Sugar : Oat, Allulose, Indigestible maltodextrin, Chicory dietary fiber, Banana concentrate	Drink	190 ml x 6 ea / Box 190 ml x 24 ea / Box	- Banana-flavored oat drink made from the king of grains, the superfood oat (Time Magazine, USA, 2002) 100% plant-based drink, lactose-free for easy digestion - High in protein and calcium for rich nutrition (Original) - Low sugar, high in dietary fiber for a lighter option (Half Sugar)	-	'23 Sep
8	Arabica Slim Cafe		Green Coffee Bean Ethanol Extract	Liquid	168 mL (12 ml x 14 sachets)	- Individually recognized functional ingredient approved for body fat reduction - Uses green coffee beans, which are raw beans before roasting - High-quality, premium green coffee bean ingredient (100% Arabica beans) - Contains premium coffee extract from Guatemala, Brazil, and Colombia as additional ingredients	-	'24 Dec

Young Generation Health & Beauty

Microbiome-based Nutrition series for the **Young Generation**

Inheriting 50 years of beneficial bacteria research and development history from Hanmi Pharmaceutical Group

Applying the EU-patented SynterAct Technology from Coree Italy AAT Research Institute

Conducting hospital collaborations and R&D projects through expansion into the US, Europe, and Asia

'Ofmom Young Generation' Series Reflecting 1020 Sensibilities

- Trendy Healthy & Beauty products tailored to the younger generation's lifestyle
- Premium-grade products
- Optimized for both online and offline channels

All Life Stage Healthcare Products Aligned with Brand Values

- Step 1 : 10s~20s main target, with a secondary focus on 30s women consumers
- Step 2 : 40s~60s Expanding to middle-aged and young senior groups (40s~60s) & family-oriented consumers
- Step 3 : Diversifying formulations (tablets · hard capsules · effervescent tablets · softgels, liquids · jellies, etc.)

High-Quality, Reasonable Pricing

- Trendy & premium packaging design
- Launch of core universal supplements
- Development of small-pack, trendy products

Details of Young Generation Series

No	Commodity	Package	Main Ingredients	Formulation	Composition	Key Features	Price	
1	Vitamin C Plus TokTok!		Vitamin C 500 mg (UK DSM)	Stick-Type Powder (Lemon Flavor)	60 g (2g × 30 sachets)	- Supports connective tissue formation and function maintenance - Essential for iron absorption - Acts as an antioxidant to protect cells from harmful oxygen radicals	-	
2	Skin Health Immune TokTok!		Total Polysaccharides 110 mg (Aloe Vera Gel)	Stick-Type Powder (Shine Muscat Flavor)	60 g (2g × 30 sachets)	- Supports skin health - Gut Health - Helps boost immune function	-	
3	Diet Holic		- Garcinia Cambogia Extract (HCA) 750 mg - Vitamin B1 0.36 mg - Pantothenic acid 1.5 mg	Stick-Type Powder (Grapefruit Flavor)	60 g (2g × 30 sachets)	- Inhibits fat synthesis from carbohydrates, promoting fat reduction - Necessary for carbohydrate & energy metabolism - Supports fat, carbohydrate, and protein metabolism & energy production	-	
4	Eye Health Eyclight		- Marigold Flower Extract (Lutein) 20mg - Vitamin A 840µgRE(2,800IU)	Stick-Type Powder (Bilberry Flavor)	60 g (2g × 30 sachets)	- Helps maintain macular pigment density for eye health, especially against aging - Supports night vision adaptation - Formation & maintenance of skin and mucous membranes - Necessary for epithelial cell growth & development	-	
5	Stress, Rest		- L-Theanine 200 mg - Vitamin B6 0.45 mg - Vitamin B12 0.72 µg - Folic acid 120 µg	Stick-Type Powder (Banana Flavor)	60 g (2g × 30 sachets)	- Helps relieve tension caused by stress - Supports protein & amino acid utilization - Maintains normal homocysteine levels in the blood - Essential for cell & blood production - Necessary for proper folate metabolism	-	
6	Memory Green Light		- Ginkgo Leaf Extract (Flavonol Glycosides) 28 mg - Vitamin E 3.3 mg α-TE (4.917 IU)	Tablet	16.5 g (550mg × 30 tablets)	- Improves memory function - Enhances blood circulation - Acts as an antioxidant to protect cells from harmful oxygen radicals	-

Chapter 04.
Cosmetic Brand

M A R E D O R O
Make me shine "Maredoro"

MARE DORO
Make me shine - MareDoro

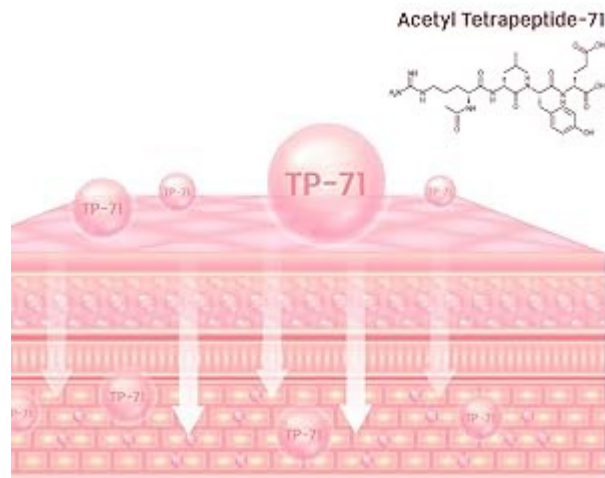

Feel the Golden Cost.

MARE DORO is a premium cosmetic brand, born from in-depth research as a cosmetic division of Dx&Vx, a company dedicated to providing biohealth solutions.

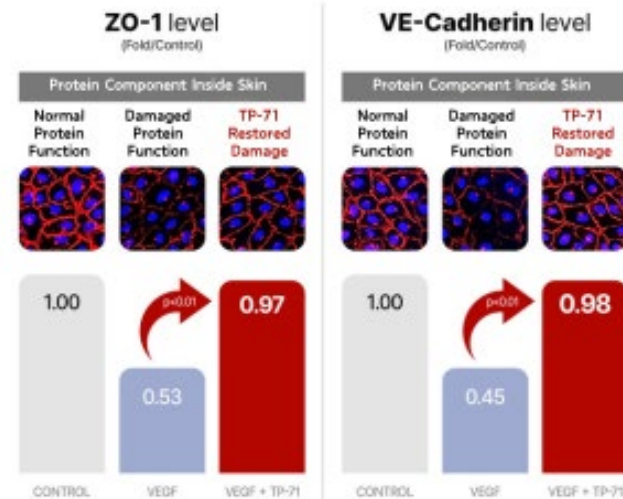

Miracle TP-71 Lotion

The patent component **Acetyl Tetrapeptide-71** is like arginine, leucine, tyrosine, and glutamate. It's made up of four amino acids, and is acetylated. It relieves and soothes sensitive skin problems. It is an ingredient that helps protect the skin barrier.

- TP-71 contains acetylated amino acids arginine, leucine, tyrosine, and glutamate to help relieve and soothe sensitive skin and protect the skin barrier.

- TP-71 helps restore damaged proteins that make up the skin, ZO-1 & VE-Cadherin, to restore shine and beauty of the skin.

- TP-71 increases the production of Filaggrin, a key structural protein in the stratum corneum, and improves the natural moisturizing factor (NMF), regulates the moisture/pH value, the oil and water balance, and accelerates the recovery of the skin barrier.

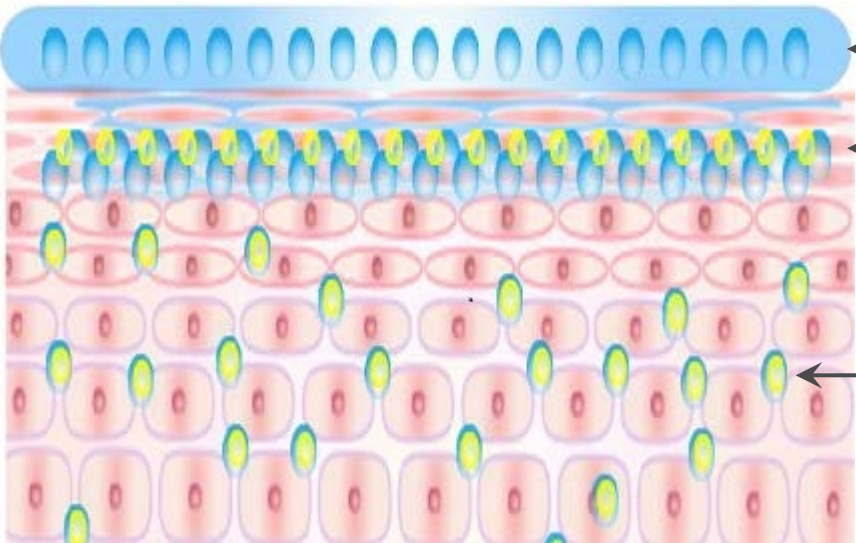

VITA-HA Lotion, Toner, Cleanser

3D Nano VITA-HA (vrrA-HASOOJ):
A nanomaterial designed to **enhance the absorption of vitamin C** (ascorbic acid).
Using a patented E-beam (electron beam) method without chemical crosslinkers, vitamin C is nano-formulated within a three-dimensional porous ultrafine hyaluronic acid.

Moisturizing & Vitamin C 3 Step delivery

HA (Hyaluronic acid)

Stage 1 – Sodium hyaluronic acid
surrounds the epidermis to provide powerful hydration.

HA + VC Hybrid

Stage 2 - 2D VITA-HA
penetrates the stratum corneum and superficial dermis to deliver hydration & antioxidant benefits

HA + VC Hybrid Nanogel

Stage 3 - 3D Nano VITA-HA
penetrates deep into the dermis to provide remarkable hydration & antioxidant benefits

IMMUNO BIFIDO

Gut Health · Immune Function · Antioxidant Triple Functional Ingredients

A refreshing day with probiotics that support gut and immune health.

Immunity

Gut health

Bone health

Antioxidant

Main Ingredients

Probiotics, zinc, selenium, vitamin D

Formulation

Powder (DUO-CAM)

Composition

5(3+2)g × 28 sticks / Box

Dosage Instructions

Take once daily, dissolve one stick in 150 mL of water

Product Features

- Contains *B. lactis* BL-04, clinically proven for immune system regulation
- Probiotic stabilization with DUOCAM® packaging technology
- Refreshing granule type formulation to enhance absorption
- Manufactured with advanced technology by Italy's S.I.I.T.

Blood Flow Care

A multifunctional formula for cholesterol and vascular health

For people in their 40s and 50s

Cholesterol

Blood Pressure

Circulation

Main Ingredients

Ginkgo leaf extract, Banaba leaf extract, Green tea extract, Coenzyme Q10, Selenium, L-carnitine tartrate, vitamins (Vit C, Vit E, Vit B6, Vit B1, Vit B2, Vit B12)

Formulation

Multi ETP (2 tablets + 1 capsule)

Composition

(1,000 mg/tablet × 2 + 500 mg/capsule) / PTP × 30 PTPs / case

Dosage Instructions

Take once daily, 3 tablets (2 tablets + 1 capsule) with water

Product Features

- 4-in-1 vascular care for cholesterol, blood pressure, blood sugar, and blood circulation
- Contains functional ingredient Coenzyme Q10, which may help reduce oxidative stress and high blood pressure
- Ginkgo leaf extract supports blood circulation and inhibits platelet aggregation
- Banaba leaf extract and corosolic acid help suppress postprandial blood sugar rise
- Green tea extract supports body fat reduction and cholesterol improvement
- Individually packaged in oxidation-resistant TTP packaging for freshness

Appendix

Dx&Vx Therapeutic Supplement

Liver Care

Simultaneous care with milk thistle and probiotics

Including Europe's SynterAct patented probiotic strains

River Health

Gut Health

Main Ingredients

Probiotics, Milk Thistle Extract

Formulation

Capsule

Composition

410 mg × 30 capsules / Special container for probiotics (1 month supply)

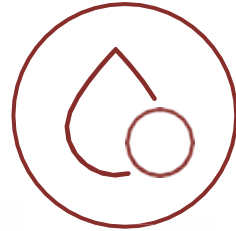

Dosage Instructions

Take once daily, 1 capsule with water

Product Features

- Contains probiotic strains (*L. rhamnosus* GG350B, HN019, Rosell-0052) clinically proven for liver health
- Functional ingredient: milk thistle extract
- Provides 100% of the daily recommended intake of milk thistle extract (contains 130 mg silymarin as the active ingredient)
- Packaged in a special container designed for probiotics
- Intestinal delivery capsules designed to ensure probiotics survive and remain active

Blood Glucose Care

Simultaneous care with banaba leaves and probiotics

Including Europe's SynterAct patented probiotic strains

Blood sugar suppression

Beneficial bacteria

Main Ingredients	Probiotics, Banaba Leaf Extract
Formulation	Capsule
Composition	370 mg × 30 capsules / Special container for probiotics (1 month supply)
Dosage Instructions	Take once daily, 1 capsule with water

Product Features

- Contains probiotic strains (HN001, L. rhamnosus GG350B) clinically proven for blood sugar health
- Probiotics that help suppress harmful bacteria and promote beneficial bacteria growth
- Contains corosolic acid from banaba leaf extract, which helps suppress postprandial blood sugar spikes
- Packaged in a special container designed for probiotics
- Intestinal delivery capsules designed to ensure probiotics survive and remain active

Appendix

Dx&Vx Therapeutic Supplement

Skin Care

Simultaneous Care for Skin and Gut Health

Skin Immune Probiotics, Individually Approved Ingredients by the MFDS

Skin Health

Antioxidant

Main Ingredients	Individually approved probiotics for skin improvement, Vitamin A, Zinc
Formulation	Capsule
Composition	370 mg × 30 capsules / Special container for probiotics (1 month supply)
Dosage Instructions	Take once daily, 1 capsule with water

Product Features

- Probiotic HY7714 (10 billion CFU), a 5-in-1 functional ingredient for skin and gut health
- Vitamin A for skin barrier formation and epithelial cell growth and development
- Zinc for normal immune function and cell protection
- Hyaluronic acid, minerals, and vitamins included as premium ingredients for skin health
- Packaged in a special container designed for probiotics
- Intestinal delivery capsules designed to ensure probiotics survive and remain active

Appendix

Dx&Vx Therapeutic Supplement

Cognition Care

For those moments when your memory slips

Clinically approved probiotics, Individually Approved Ingredients by the MFDS

Cognition

Immunity

Main Ingredients

Chamomile extract powder, Zinc

Formulation

Liquid

Composition

140 mL (20 mL × 7 bottles) / Box
280 mL (20 mL × 7 bottles × 2, 14 bottles) / Box

Dosage Instructions

Take once daily, 1 bottle directly

Product Features

- First in Korea: Chamomile extract, individually approved for cognitive and joint health improvement
- Contains highly concentrated luteolin, 3,000 times more concentrated than chamomile
- 4-in-1 care for cognitive function, joints, immunity, and cell oxidative stress protection
- Contains zinc gluconate to support normal immune function
- Convenient liquid formulation, easy to take without water and quickly absorbed
- Premium flavor with a high-concentration herbal extract type

Appendix

Dx&Vx Therapeutic Supplement

Triple Care

Korea's First 4-in-1 Functional Formula

Cognition + Joints + Blood Pressure + Blood Sugar Care

Cognition

Joint

Circulation

Main Ingredients

Chamomile extract powder, Ginkgo leaf extract, Banaba leaf extract, Coenzyme Q10, Selenium, Zinc, Vitamin A, Vitamin B6, Vitamin B12, Vitamin E

Formulation

Triple formulation (liquid + tablet + capsule)

Composition

334.6 g (23.9 g × 14 bottles) / Box

Dosage

Instructions

Take once daily, 1 bottle directly or with water

Product Features

- Korea's first individually approved chamomile extract for cognition and joint health
- 6-in-1 care for cognition, circulation, joints, blood sugar, blood pressure, and antioxidant protection (Cognition/Joints – Chamomile, Circulation – Ginkgo, Blood Sugar – Banaba, Blood Pressure – CoQ10)
- Contains zinc gluconate to support normal immune function
- High-concentration herbal extract in liquid form
- Convenient triple formulation type, easy to drink once a day without water, quickly absorbed

Ofmom®

Microbiome-based Family Nutrition Brand for ALL Life Stages

Ofmom was born through 50 years of microbiome research and development by Hanmi Pharmaceutical Group, along with the global research centers of Coree Group located in Italy, China, and Korea.

FormulaMate

Probiotics that Protect My Child's Gut Health for a Lifetime

Gut Health

Bone Health

Main Ingredients

Probiotics, Calcium, Vitamin D

Formulation

Powder

Composition

2g x 30 sachets / Box

Dosage Instructions

1 time/day, take 1 sachet per day, mixed with formula, milk, water, beverages, or baby food at temperatures below 37°C.

Product Features

- The EU-patented 3-strain probiotic SynterAct Technology blended in 1:1:1 ratio (L. rhamnosus HN001, B. lactis HN019, B. breve M-16V)
- Enhanced immunity, reduced allergy incidence (B. lactis HN019)
- Improved digestive function, better gut environment (L. rhamnosus HN001)
- Nutrient metabolism system establishment (B. breve M-16V)
- All-in-one formula with 3 functional ingredients necessary for growth and development of baby and children (probiotics, calcium, vitamin D)
- Free from 9 unnecessary additives

FloraMate

Probiotics that Protect Women's Gut Health

- Vaginal-origin strain
- Gut Health
- Bone Health

Main Ingredients	Probiotics, Calcium, Vitamin D
Formulation	Powder
Composition	2.5g x 30 sachets / Box
Dosage Instructions	1 time/day, take 1 sachet with or without water

Product Features

- The EU-patented 3-strain probiotic SynterAct Technology blended in 1:1:1 ratio (L. rhamnosus HN001, B. lactis HN019, B. breve M-16V)
- Improvement in postpartum depression and breast milk immune indicators (L. rhamnosus HN001)
- Increased breast milk immune indicators (B. breve M-16V)
- The patented vaginal-origin strain from healthy women (L. plantarum LB931)
- Contains sub-ingredients specialized for skin health: hyaluronic acid, collagen, elastin
- Optimal synbiotics formulations with probiotics and oligosaccharides

ProteinMate

High-Protein·High-Dietary Fiber Protein Supplement

Protein

BCAA

Muscle Health

Main Ingredients

Isolated soy protein, Whey protein concentrate, Hydrolyzed whey protein, Goat milk protein powder, Oat protein

Formulation

Powder

Composition

2.5g x 30 sachets / Box 19g x 14 sachets / Box

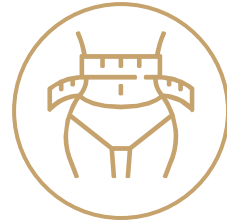

Dosage Instructions

1~2 time(s)/day, Mix two sachets with milk or water per serving

Product Features

- 1:1 blend of animal and plant proteins considering digestion speed & easily digestible hydrolyzed protein
- Over 5,000mg of BCAA for muscle growth & prevention of muscle loss (WHO recommended daily intake 5,100mg)
- The EU-patented 3-strain probiotic SynterAct Technology blended in 1:1:1 ratio (L. rhamnosus HN001, B. lactis HN019, B. breve M-16V)
- Contains L-carnitine (increases energy metabolism) & 17 types of minerals and vitamins
- Low molecular weight fish collagen, hyaluronic acid (for skin health, skin moisture, increased absorption)

Lactobacillus Diet

Korea's First Clinically Proven Fat-Reducing Probiotic

Reduce Body Fat

UV Damage Care

Gut Health

Main Ingredients	Probiotic complex of L. Curvatus HY7601 and L. Plantarum KY1032, Zinc, Pantothenic acid, Vitamin D, Vitamin B1
-------------------------	--

Formulation	Capsule (HC)
--------------------	--------------

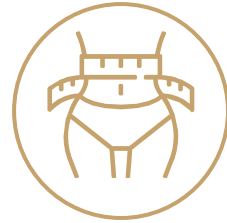

Composition	400mg x 30 capsules / Container
--------------------	---------------------------------

Dosage Instructions	1 time/day, take 1 capsule with water
----------------------------	---------------------------------------

Product Features

- The first Lactobacillus in Korea to be certified as the individually approved functional ingredients for fat-reducing functionality
- Among individually recognized probiotics for body fat reduction in Korea, the highest number of 10 human clinical trial indicators improved
 - * Superior results compared to BNR17 probiotic clinical tests
- 11 complex functionalities of 5 composite ingredients
- Synbiotics design with 3 types of oligosaccharides + 4 types of dietary fiber
- Specially designed container exclusively for probiotics

Ca·Mg·VitD Immune·Diet

Fingerroot Extract for Body Fat & Skin Health

Reduce Body Fat

Skin Health

Bone Health

Main Ingredients Fingerroot Extract Powder, Calcium, Magnesium, Zinc, Manganese, Vitamin D, Vitamin K

Formulation Tablet

Composition 600mg x 4 tablets / 14 Packs / Box,
600mg x 4 tablets / 28 Packs / Box

Dosage Instructions 1 time/day, take 1 Pack (4 tablets) with water

Product Features

- The first in Korea to formulate fingerroot extract ingredient recognized for reducing body fat & improving skin health
- Internationally recognized fingerroot extract with 17 patents in 6 countries
- Simultaneous care for skin, immunity, and bone health fatigued from dieting
- Ideal ratio blend of calcium, magnesium, and vitamin D for increased calcium absorption
- 13 complex functionalities of 7 composite ingredients
- Multi-pack application for convenient intake

Arabica Slim Cafe

Burn Fat Smarter with Pure Arabica Green Coffee

Reduce Body Fat

Coffee Diet

Main Ingredients

Green coffee bean ethanol extract (No. 2018-6)

Formulation

Liquid

Composition

168ml (12ml x 14 sachets)

Dosage Instructions

Mix 1 sachet of Arabica Slim Café with 250~400ml of cold or hot water before consumption

Product Features

- Individually recognized functional ingredient, Green Coffee Bean Extract, approved by the Ministry of Food and Drug Safety for body fat reduction
- Uses unroasted green coffee beans to preserve chlorogenic acid, a key component for fat reduction
- Made with 100% high-quality Arabica beans
- Premium green coffee bean extract produced using U.S. patented CAG-7 extraction method
- Contains additional coffee extract sourced from Guatemala, Brazil, and Colombia
- Convenient stick pouch format for easy storage and consumption
- Enjoyable both hot and cold in a liquid form

Bolognese Ofmom

Liquid infant formula for my child's health

Liquid Infant Formula
