3. HOW DOES THE PURCHASE PROCESS WORK?

Once we've helped you find *the one*, your Burgess broker handles everything, from advising on pricing strategy, handling negotiations and managing all communication between your team and the seller's team.

SUSTAINABILITY

A FORCE
FOR GOOD

OUR PASSION FOR THE OCEAN IS DEEPLY ROUTED IN EVERYTHING WE DO, AND WE WANT FUTURE GENERATIONS TO SHARE THIS PASSION TOO. THIS IS JUST ONE EXAMPLE OF OUR DRIVE TO MAKE A POSITIVE DIFFERENCE.

It's up to all of us to protect the extraordinary oceans where we work and play. We are reducing the Burgess footprint from offices to boat shows, changing the way we travel and using our technical and operational expertise to drive greater efficiencies in the superyacht industry of today and tomorrow.

Burgess Conservation, in partnership with Blue Marine Foundation, is led by experts in ocean health and driven by science. It enables us to invest directly into conservation and means that anyone chartering, buying, selling or building with us can make a positive contribution to ocean health.

Our latest project in the Greek Islands maps and protects Mediterranean seagrass meadows, which have declined 34 percent in the last 50 years. This will protect thousands of species, capture carbon, help protect traditional fishing livelihoods, preserve fish populations and could become a model of marine conservation for other Mediterranean sites.

‘Our industry has an impact on planet and people. It also has a responsibility to do better so, at Burgess, we choose to use our business as a force for good. Ocean conservation is at the heart of that but we also run social engagement programmes, impact volunteering and so much more.’

Georgina Menheneott, Burgess Partner for ESG
