

little lights®

FROM OUR FAMILY TO YOURS

we are little lights

A small family manufacturer from Krakow, Poland that makes lamps for children and families all over the world. Our story began with an initial simple design, our original hallmark lamp, the "Sleeping Fox". When we created this first lamp we worked tirelessly to make a beautifully designed product that not only evoked the image of a friendly companion in the form of a cute sleeping fox, but also filled the room with a fine-tuned warm ambience perfectly suited for either reading or sleeping. Since that initial inspiration we've come a long way, creating a diverse set of uniquely designed lamps that have been inspired by children's own imaginations.

We make all of these one-of-a-kind lamps with 100 percent natural pine wood. Its smell, texture, and durability is one of the main elements we feel gives our product a sense of timelessness. Because with every lamp we create we're striving not only to make a beautiful keepsake that lasts through childhood, but hopefully stays in the family for generations.

Little Lights is a labor of love. It's a product of the hard work of a select few dedicated craftsmen and women. Each one of them puts their whole heart and talent into every stage of the creation of our lamps. These lamps go through a long and detailed process before they enter your home as the majority of our work is done by hand with careful precision and extreme attention to detail. We hand polish and hand paint. We carefully define tiny eyes and noses. We polish windows and sand down ladders, all so we can say for sure that every one of our lamps is a special work of art.

In the end, what's most important for us is that we inspire childlike imagination, add some color and warmth, and provide a small sense of joy to every home we enter. Little Lights's sole goal is to help create a cozy and unforgettable atmosphere that becomes a part of the beautiful memories made every day in your family home.

DIMMABLE ILLUMINATION

Read. Play. Sleep. Regardless of the activity, our dimmable LED lights adjust easily to set the right mood for any occasion.

The mark of
responsible forestry
FSC® C125523

FSC® CERTIFICATION

Little Lights is building a brand that takes strong inspiration from nature. To bring natural systems into balance, a new sustainable economy that respects the limits of our natural resources and ecosystems is needed. This requires a shift in how we value, use, and dispose of resources to create a circular system as we see in nature.

Forests are precious, not only for the survival of humanity but also for the rest of the planet. By looking after our forests, we preserve one of our best defenses against climate change. Forests are also home to many endemic and endangered species.

With concern about the state of the world's forests and timber resources increasing, FSC provides us with credible solutions to our current environmental and social issues. Becoming FSC certified demonstrates our commitment to maintaining the highest social and ecological standards on the market.

As the world's most trusted sustainable forest management solution, FSC labeling shows our customers that the materials used in our production processes originate from legal and sustainable sources.

TUV CERTIFICATION

A TUV certification lets you know that Little Lights is committed to producing quality products with consistent specifications.

Our products have been tested for electrical safety, hazardous material components, and the production facility has undergone an annual inspection.

TÜV SÜD certificates and certification marks represent a third-party endorsement by a globally renowned organization. Around the world, the TÜV SÜD logo is widely recognized and respected as a trusted symbol of quality, safety, and sustainability.
