Thank you for considering Telguard solutions. Since 1986 we haven't just been preparing security and life safety dealers for what's next – we've been inventing it. Take a look inside.

Telguard products are available from security distribution partners throughout the US and Canada.

AT&T T-Mobile verizon

COMMERCIAL FIRE

TG-7FE 5G LTE-M
Commercial Fire Full-Featured Dual Path LAN Internet & 5G Cellular Communicator

TG-7FP 5G LTE-M
Commercial Fire Sole Path Panel-Powered Cellular Communicator

TG-7FS 5G LTE-M
Commercial Fire Cellular Alarm Communicator

MULTI-CARRIER

TG-7FM MULTI-CARRIER
Commercial Fire Sole Path Communicator with Multi-Carrier redundancy that connects to any cellular carrier

TG-7FEM MULTI-CARRIER
Commercial Fire Dual Path Communicator with LAN Internet & Multi-Carrier redundancy that connects to any cellular carrier

ADD-ON MODULE

TG-PEM
Multi-feature accessory, mounts inside the metal enclosure of TG-7 series communicators

ACCESSORIES

We offer a full line of accessories, including antennas, cables, batteries, transformers, and more

COMMERCIAL

TG-7E 5G LTE-M
Commercial Dual Path LAN Internet & 5G Cellular Communicator

TG-7/7A 5G LTE-M
Commercial, Industrial, and Financial Cellular Alarm Communicators

RESIDENTIAL

TG-1 EXPRESS LTE
Panel-Powered Primary Residential Cellular Alarm Communicator

TG-4/TG-4B LTE
Primary & Backup Business and Residential Cellular Alarm Communicator

APPLICATIONS

HomeControl Flex
Remotely arm & disarm residential alarm system from your phone or PC

Telguard Tools
Access communicator status and update settings wherever you happen to be

Telguard Virtual Modem
Download/upload panel programming through your Telguard device

TELGUARD

AMETEK

THE ALARM COMMUNICATION EXPERTS

PRODUCT CATALOG

Professional Grade UL/ULC Listed Security Solutions

- Commercial Fire products UL864 Listed
- Commercial Intrusion products UL1610 or 2610 Listed
- Residential products have household UL Listings
- Products sold in Canada have ULC Listings

COMMERCIAL FIRE COMMUNICATORS

TG-7FE 5G LTE-M

The TG-7FE dual path communicator has both wired Internet (LAN) and 5G cellular LTE-M pathways.

- Powers from the panel or via an included plug-in adapter
- Highly configurable to fit any need, and work with any panel
- Pathways can be set up as primary or backup; set to sole path cellular if LAN is not available

TG-7FP 5G LTE-M

The TG-7FP is a streamlined sole path solution with the features that matter.

- Simplicity means a lower purchase price and a quicker installation
- Powers from 12/24 VDC panel power—no electrician needed

TG-7FS 5G LTE-M

The TG-7FS is designed for commercial fire systems, meeting UL 864 for sole, primary, or backup path communications.

- 5-min. or 60-min. supervision available (180-sec. in Canada)
- 6-hour and daily self-test options.
- Replaces or works in conjunction with landlines

MULTI-CARRIER COMMUNICATORS

TG-7FM MULTI-CARRIER

The TG-7FM is a 5G LTE-M Sole Path communicator that works seamlessly with all three major US carriers—AT&T, T-Mobile, and Verizon.

- Analyzes and selects the best network connection during installation
- Automatically switches networks when needed to maintain connectivity
- Powers directly from the panel

TG-7FEM MULTI-CARRIER

The TG-7FEM is a 5G LTE-M Dual Path communicator that can utilize Multi-Carrier cellular as well as wired Internet (LAN).

- Selects the best carrier at installation and switches when an outage occurs
- Can be set to sole path Multi-Carrier cellular if LAN is not available
- Powers from the panel or via an included plug-in adapter

COMMERCIAL INTRUSION COMMUNICATORS

TG-7E 5G LTE-M

The TG-7E dual path communicator has both wired Internet (LAN) and cellular 5G LTE-M pathways available.

- Powers from the panel or via an included plug-in adapter
- Highly configurable to fit any need, and work with any panel

TG-7 5G LTE-M

The TG-7 provides primary or backup cellular communication solutions for commercial, retail, and industrial markets.

- Provides security supervision with automatic self-test and system trouble outputs
- Supports multiple alarm formats
- Replaces or works in conjunction with landlines

TG-7A 5G LTE-M

The TG-7A provides cellular solutions for finance and high-value retail industries. Ideal for banks, jewelry stores, & pawn shops.

- Attack-resistant, locking, metal enclosure
- UL Listed for bank, safe, and vault usage

RESIDENTIAL ALARM COMMUNICATORS

TG-1 EXPRESS LTE

The TG-1 Express, a Telguard flagship product, is a universal cellular communicator that works with almost any alarm panel.

- Supports HomeControl Flex for remote arming, disarming, and more.
- Uses the power and backup battery from the panel.
- Power and dial capture over a single cable for reduced installation time.

TG-4/TG-4B LTE

The TG-4 replaces or works in conjunction with a landline to provide a reliable cellular reporting solution.

- Designed for either residential or commercial applications.
- Automatic format detection for a true plug-and-play set up.
- TG-4B model includes battery.

ADD-ON MODULE

TG-PEM

The TG-PEM accessory mounts inside the metal enclosure of TG-7 Series communicators.

- Universal expander adds up to 8 dry contact inputs
- UL/ULC Listed to work with panels that do not have a dialer (DACT) to get signals to central station

TELGUARD CELLULAR SERVICE

Telguard partners with AT&T, T-Mobile, and Verizon to offer communicators with the best cellular service.

With Multi-Carrier, all three carriers are available on the same communicator. During installation, each carrier is evaluated and the strongest one is selected. Later, should an outage be detected, the carrier is automatically switched.

MULTI-CARRIER
AT&T T-Mobile verizon

Other communicators are available with either AT&T service or Verizon service.

In Canada, AT&T models are available and utilize the Rogers, Bell, Telus, or SaskTel networks.

SOFTWARE APPLICATIONS

HomeControl Flex™

Homeowners can remotely control their security systems via phone app or web browser. The app is customizable with dealer name and logo.

Telguard Tools

Dealer personnel can review and update communicator settings on the go to ease installations and maintenance.

Telguard Virtual Modem

Avoid a site visit to check status or update settings on panels that support downloading and uploading through a modem connection —no landline needed.

ACCESSORIES

ANTENNAS AND MORE

- EXDL-0 Omni-directional antenna.
- HGDL-0 High-gain directional antenna.
- Low-loss cables in various lengths.
- Batteries, transformers, tamper switch, and more.
