【Highlights】

Ama huts are huts where divers can rest their tired bodies after a day of fishing and warm themselves by a fire. Preparations for fishing and changing clothes are also done in the hut. People keep warm by putting wood in the central hearth, and enjoy eating and chatting in between morning and afternoon fishing. Satoumian's Ama hut experience is modeled after an original Ama hut, where you can eat while listening to active and retired Ama divers talk about divers' fishing and the sea. Lunch and dinner are available, and you can savor fresh seafood caught in the waters of Ise-Shima while listening to valuable stories from the Ama divers. The ingredients are grilled over charcoal, which makes them taste even more delicious in the atmosphere of the hut.
