IMPORTANT: Users of the hiking track do so on their own responsibility

DID YOU KNOW?

That in Orjen existed a profession called ledar and their job was extraction and sale of snow from the snow pits for use in the first hotels and better restaurants on the shoreline. Famous were the ledari from the village Kameno that rented the pits in yearly auctions. The snow was extracted during the summer and was transported on a horse during the night wrapped in a thermo-isolated handbag. The profession died off with the emergence of the first refrigerators.

Orjenska lokva

DID YOU KNOW?

That the first mountainbiking exit from Vrbanj to the Orjensko sedlo happened in July 1903, and this was a pedestrian road, since the road for vehicles was completed only in 1908.

We can only imagine how difficult it was for Vjekoslav Novotni, a famous croatian mountaineer, biker and travel writer, that in such conditions, with the bicycle from that time, reached the 1600 m high Orjensko sedlo!

MARKING OF TRACKS

HIKING AND WALKING TRACKS

The beginnings of the tracks and intersections are marked by vertical signaling or inscriptions, and tracks are marked using a system of red and white markings, common to all ex Yu countries.

Track crossroads at the mountain hut "Za Vratlom"

BIKING TRACKS

Part of the roads that can be used for biking are marked at intersections by vertical signaling in the same system as the hiking and walking tracks, with the mark mb (mountainbiking) and the corresponding pictogram.
