COMPANY INTRODUCTION

Nanshan Jinzhu Ecological Technology Co. LTD is located in Chengbu Shaoyang City, Hunan Province . Chengbu is a subtropical mountain climate, the county woodland areas cover about 1.85 million acres , Meanwhile the bamboo forest covers an area of 401,000 acres , as like natural bamboo sea.

Nanshan Jinzhu factory covers an area of 45 acres, plant construction area is 10,000 square meters. Jinzhu Ecological is a comprehensive modern enterprise integrating "comprehensive development of bamboo resources and deep processing of bamboo environmental protection tableware series". Jinzhu Ecological bamboo environmental protection tableware adopts the first self-service intellectual property processing equipment in the country, has obtained a number of national invention patents, and has achieved large-scale mass production.

With the increasing seriousness of global environmental problems, Jinzhu ecological strives to be the pioneer of global plastic ban with the concept of "eliminating white pollution and advocating environmentally friendly life". The company is committed to the development of

renewable, degradable bamboo disposable catering service products, with high quality, green environmental protection, safety and comfort, nice looking and durable characteristics, become the best substitute for disposable plastic tablewares and the best choice for modern catering industry.
