

Press Release

Oculogyx Unveils Cutting-Edge AI Solutions for Eye Care Providers at Vision Expo East 2025

La Jolla, CA – February 17, 2024 – Oculogyx, a leading innovator in artificial intelligence for eye care, is proud to announce its official launch at **Vision Expo East in Orlando, February 19-22, 2025**. Visit Oculogyx at the **Launch Pad, Booth #P1473 – L6, across from The Main Stage** to experience the future of AI-powered eye care.

Oculogyx is set to **revolutionize optometry and ophthalmology** with AI-driven solutions, including **advanced image analysis, AI-powered scribe services, intelligent practice agents, and an ophthalmic study guide**. Designed to **enhance efficiency and diagnostic accuracy**, these tools seamlessly integrate into clinical workflows while supporting **multiple languages** for global applicability.

“Oculogyx was founded with a vision to empower eye care providers through AI technology,” said **Dr. David Schanzlin, MD, Ophthalmologist & Founder of Oculogyx**. **“Our AI-powered suite allows doctors to focus more on patient care and less on administrative burdens.”**

Key Offerings of Oculogyx:

- **GenA Eye™:** A specialized AI knowledge repository providing instant clinical insights, keeping doctors at the forefront of ophthalmic advancements.
- **GenA Eye™ Powered Image Analysis:** Enhances diagnostic precision with **advanced machine learning algorithms** for ophthalmic image interpretation.
- **GenA Eye™ Scribe:** AI-driven **medical scribe** that **automates documentation**, significantly reducing charting time and administrative workload.
- **GenA Eye™ Ophthalmic Study Guide:** A comprehensive AI-powered resource to support **learning and clinical decision-making**.
- **GenA Eye™ Practice Agents:** AI-driven **virtual assistants** that optimize practice management, improving **operational efficiency**.

With its **official launch at Vision Expo East 2025**, Oculogyx marks a significant leap in AI applications for **eye care**, positioning itself at the forefront of medical innovation.

About the Founder: David Schanzlin, MD

Dr. **David Schanzlin** is a renowned ophthalmologist and a pioneer in **corneal surgery and refractive procedures**. With decades of experience and international recognition for his research, he has been instrumental in **advancing ophthalmic technologies**. As the founder of **Oculogyx**, Dr. Schanzlin brings visionary leadership to develop **AI-driven solutions that enhance patient outcomes and streamline clinical workflows**.
