

# TEQUILA EXCELLIA

A bold reinterpretation of tequila

## THE STORY

Its production, the fruit of Mexican authenticity and French savoir-faire of Maison Villevert, perfectly illustrates the uniqueness of this sipping tequila. Excellia Tequila sublimates the world of tequila with boldness through an extraordinary taste experience and a human story driven by passionate people: Doña Leticia Hermosillo Ravelero and Jean-Sébastien Robicquet. Doña Leticia Hermosillo Ravelero, a pioneer in the tequila industry, is one of the few women at the head of a 400-hectare estate of agaves and a distillery managed by her son, the Maestro Tequilero Don Alberto Partida. Very attached to their terroirs, they share common values: respect for their heritage, ancestral know-how and their cultures.

## AN EXCEPTIONAL TERROIR

Artisanally produced in a single distillery, “Cava de Oro,” Excellia Tequila is an additive-free tequila, 100% agave from the blue weber variety, grown until maturity, at around eight years of age.

## ARTISANAL PRODUCTION

Each step of its production process requires meticulous attention: The agaves are harvested manually, traditionally cooked in brick ovens, and then crushed to gently extract the agave juice. The juices then undergo natural fermentation. Then a double distillation takes place, reflecting the art of Cognac-making: a bare flame, in small copper stills to preserve only the heart of the distillate and preserve the quality of the agave. Finally, the magic of ageing takes place in casks that have previously been used to mature sauternes and cognac crus.
