

lightspeed

Lightspeed Golf is a fast, flexible platform that helps golf courses simplify operations, reach more golfers, drive revenue and deliver exceptional customer experiences on and off the course.

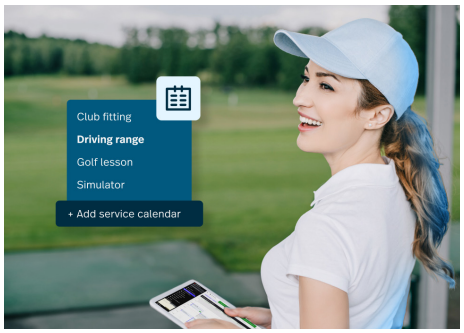

Lightspeed Scheduling for Golf

Serve a broader audience, drive additional revenue and easily taking bookings for an unlimited number of off-course services straight from Lightspeed's one-stop golf management platform.

Eliminate third-party workarounds

No more time-consuming, disorganized third-party workarounds. Scheduling is fully native to Lightspeed's core golf course management platform and provides the high degree of flexibility and customization that your course needs.

Scale your off-course service offering

Golf simulators, lessons, club fittings, racket sports and more: Create and manage service calendars for an unlimited range of off-course services and take your business beyond the course.

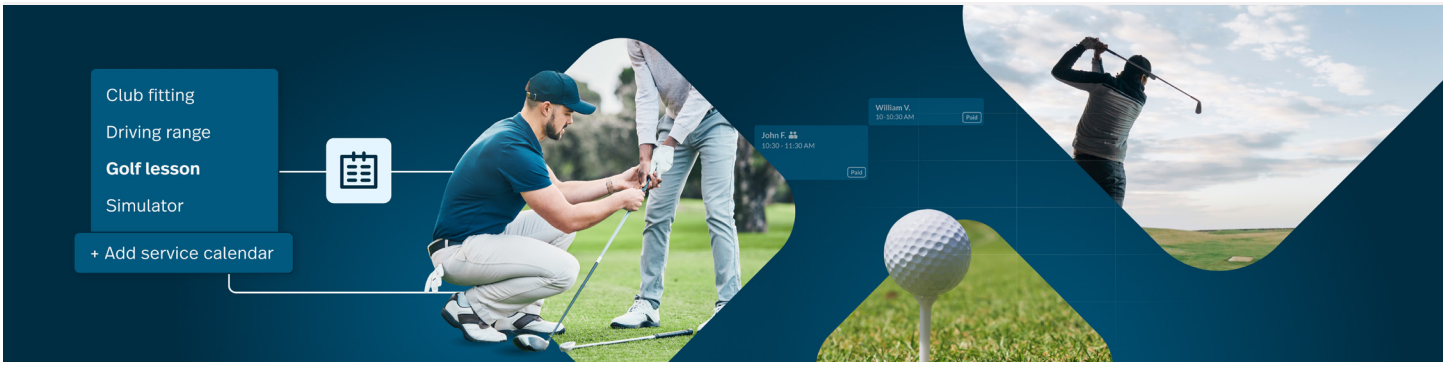

Take and manage any booking, any time

From 24/7 self-serve online booking and payment to automated email notifications, keep booking simple across all services. Scheduling makes it easy for your team to view, manage and analyze all bookings, regardless of whether they are at the pro shop or not.

How Lightspeed Scheduling can help your golf course

Improve efficiency and simplify your operations with a feature-packed scheduling tool that helps you expand your online booking capabilities beyond tee times.

- ✓ **Custom service calendars:**
