

LA FOLIE SYRUPS

Sirop La Folie was J.C.'s (James Combier) secret delight. A reminder of life's rich follies: a child's love of all that is sweet, the comfort of sharing recipes between generations, the aromas of fruit and flowers true to nature, the heady memories of an exotic voyage, the joys and refreshment to be found in a seaside holiday, the sophisticated fragrance and the excitement of Parisian café society.

Water and sugar are the sole ingredients of our base syrup (100% sugar syrup). To this, we add only natural fruit juices, extracts of fruit and plants, or aromas (the majority of which are also natural) to enhance the flavors and natural colorings if necessary. Sirop La Folie contains zero preservatives.

In pride of place in the stills room, the 19th-century copper basins attest to the importance of syrups for the distillery's founder, Jean-Baptiste Combier, a confectioner by trade.
